

## STEVEN MAGUIRE

Since January 2024, I am **Deputy Dean (Research)** at the **University of Sydney Business School** (Australia) where I lead implementation of the research enterprise component of the Business School's 2023-27 strategy: engagement with industry, government, civil society and academia to produce excellent research with clear, significant local and global impact. I am also Professor of Strategy, Innovation and Entrepreneurship and the Business School's first Fellow of Multidisciplinary Innovation, collaborating with other faculties and multidisciplinary institutes to develop impactful, multidisciplinary research and teaching programs. In 2020, I spearheaded the development of a new, highly multidisciplinary (engaging six faculties/schools) Major in Innovation & Entrepreneurship for undergraduate students across the University of Sydney; and during 2019 – 2023 I led the inaugural Innovation Catalyst project at the University of Sydney Nano Institute, "[Engaged Innovation Scholarship](#) for Impact", in which social scientists are embedded into teams of engineers, natural scientists and biomedical researchers to study innovation 'in the making' while actively contributing to it. Prior to 2019, I worked for 20 years at McGill University (Canada).

I publish regularly in leading journals (e.g. *Academy of Management Annals*; *Academy of Management Journal*; *Academy of Management Review*; *Journal of Management Studies*; *Organization Studies*; *Strategic Management Journal*); am well cited (> 12,000 times according to Google scholar); and have earned substantial research funding with co-investigators (> \$25 million) as well as numerous awards. My research focuses on technological innovation and institutional entrepreneurship driven by the emergence of novel risks to human health and the environment, theorizing the role of non-market actors (e.g. NGOs, scientists, government agencies) in shaping the adoption or abandonment of particular technologies. Empirically, I have studied controversial products at the intersection of commercial, scientific, and political struggles, such as pharmaceutical products for treating HIV/AIDS as well as polluting industrial chemicals and greener chemistries. I have particular expertise on risk and its management, serving in an advisory role to the Government of Canada's Chemicals Management Plan during 2007 – 2011, and working currently on research projects with scientists from Health Canada and Environment & Climate Change Canada. An advocate for engaged, multidisciplinary scholarship, I work closely with researchers from multiple faculties and publish beyond traditional business school outlets (e.g. *ACS Nano*; *Ambio*; *Environmental Health Perspectives*; *Environmental Toxicology & Chemistry*; *Global Governance*; *Integrated Environmental Assessment & Management*).

In addition to the University of Sydney, I also had success in multidisciplinary leadership roles at McGill University. In 2013 I was a founding member of McGill University's Innovation Steering Committee, and I served as its Co-Chair during 2015 – 2017. There, I initiated change projects aimed at instilling a culture of innovation and entrepreneurship at McGill, including: new Minors in Entrepreneurship for non-Management undergraduate students; revisions to McGill's intellectual property policy; formalized recognition of innovation and entrepreneurship as important and valid forms of impact when assessing promotion and tenure; and facilitation of access to laboratories for start-ups.

During 2011 – 2017, I served as Founding Director of the Marcel Desautels Institute for Integrated Management at McGill University which, under my leadership, became an important hub of multidisciplinary programming by focusing on sustainability, social innovation and entrepreneurship. I oversaw the conception, championing and implementation of a range of novel programming that connects Management to other faculties, including:

- A new Major in Managing for Sustainability for Management students, in collaboration with the McGill School of Environment and Department of Geography
- A new four-day, intensive module on The Sustainability Challenge for EMBA students
- A new formalized "Environment Option" for PhD students in Management interested in sustainability, in collaboration with the McGill School of Environment
- A unique series of five new Minors in Entrepreneurship, each with a common core but customized to the needs of undergraduate students from five partner faculties (Agricultural and Environmental Sciences, Arts, Engineering, Music and Science)
- Two new introductory service courses on Management for non-Management students (Integrated Management Essentials 1 and 2)
- A Social Economy Initiative, which launched a Social Innovators' Integration Lab in partnership with local community organizations as well as an Impact Internship program that places students in NGOs

**RESEARCH, TEACHING AND POLICY: AWARDS, DISTINCTIONS & APPOINTMENTS**

- 2023 Winner of the Roland Calori Prize, awarded bi-yearly for the best article published in *Organization Studies* over the previous two years  
- for: Dwyer, G., Hardy, C. & Maguire, S. 2021. "Post-Inquiry Sensemaking: The Case of the 'Black Saturday' Bushfires", *Organization Studies*. 40(2): 637 – 661.
- 2021 Excellence in Research Award for Established Researchers, from the University of Sydney Business School
- 2021 Finalist for *Academy of Management Journal* 2021 Impact Award  
- for: Maguire, S., Hardy, C., & Lawrence, T., 2004, "Institutional Entrepreneurship in Emerging Fields: HIV/AIDS Treatment Advocacy in Canada", *Academy of Management Journal*, 47(5): 657-679.
- 2020 "Best Research Paper Award 2020" from the Centre for Social Impact in Australia (a collaboration linking the University of New South Wales, University of Western Australia and Swinburne University of Technology)  
- for: Dwyer, G., Hardy, C. & Maguire, S. 2021. "Post-Inquiry Sensemaking: The Case of the 'Black Saturday' Bushfires", *Organization Studies*. 40(2): 637 – 661.
- 2020 "Top Downloaded Paper 2018-2019 Award" from the journal *Environmental Toxicology & Chemistry* for having immediate impact (among top 10% of papers for number of downloads within first year of publication).  
- for: Basu, N., Crump. D., Head, J., Hickey, G., Hogan, N., Maguire, S., Xia, J., Hecker, M. 2019, "EcoToxChip – A Next-Generation Toxicogenomics Tool for Chemical Prioritization and Environmental Management", *Environmental Toxicology and Chemistry*, 38(2): 279 – 288.
- 2019 Innovation Catalyst, University of Sydney Nano Institute (2019 – 2022) for "Engaged Innovation Scholarship for Impact".
- 2017 Finalist for 2016 *Academy of Management Review* Best Paper Award.  
- for: Hardy, C. & Maguire, S., 2016. "Organizing Risk: Discourse, Power and Riskification", *Academy of Management Review*, 41(1): 80 – 108.
- 2016 "Catalyst Award for Sustainability in Education", awarded by McGill University to recognize innovative programming addressing sustainability, for conceiving and implementing Desautels' new concentration and major in Managing for Sustainability for BCom students.
- 2015 "Dr. Alfred N. and Lynn Manos Page Prize for Integration of Sustainability Issues in Business Curricula" for 2014, awarded by the Darla Moore School of Business at the University of South Carolina, for conceiving and implementing Desautels' new concentration and major in Managing for Sustainability for BCom students.
- 2012 Queen Elizabeth II Diamond Jubilee Medal, awarded by the Governor General of Canada to honour Canadians for their significant achievements and dedicated service to peers, community and Canada.
- 2011 Desautels Chair in Integrated Management, McGill University (2011 – 2017)
- 2010 "2010 Greif Research Impact Award", awarded by the Greif Center for Entrepreneurial Studies at the University of Southern California for authoring the entrepreneurship paper that appeared in top-tier management and entrepreneurship journals six years prior and received the highest number of citations (based on Social Science Citations Index) in the five years following publication

- for: Maguire, S., Hardy, C., & Lawrence, T., 2004, "Institutional Entrepreneurship in Emerging Fields: HIV/AIDS Treatment Advocacy in Canada", *Academy of Management Journal*, 47(5): 657-679.
- 2010 "2010 Ron Farha Award", awarded by the Farha Foundation (Quebec's largest HIV/AIDS fundraising organization) to honour volunteers in the fight against HIV/AIDS who made pioneering contributions which had enduring impacts
- 2009 Quebec Teaching Chair (Programme de chaires d'enseignement en génie et en administration dans les universités québécoises, 2009 – 2016): one of only twenty-four awarded across the province on the basis of teaching and research excellence, following a peer-reviewed process (\$100,000 per year for five years to the Desautels Faculty of Management at McGill University)
- 2009 "Best Paper of 2008" in the *Journal of Management Studies*, awarded by the editorial board - for: Maguire, S. & Phillips, N., 2008, "'Citibankers' at Citigroup: A Study of the Loss of Institutional Trust after a Merger", *Journal of Management Studies*, 45(2): 372-401
- 2008 Finalist for the Principal's Prize for Excellence in Teaching at McGill University in the category of Associate Professor (nominated by the Desautels Faculty of Management)
- 2007 Government of Canada Chemicals Management Plan "Challenge Advisory Panel" (appointed for a term ending in 2011), which advised Health Canada and Environment Canada on the application of the precautionary principle and weight of evidence in screening approximately 200 "high priority" chemicals for health and environmental risks.
- 2007 Edward Clarence Dyason *Universitas 21* Fellowship from the University of Melbourne
- 2006 International Visiting Fellowship from the Advanced Institute of Management (UK), a multi-council initiative of the UK's Economic and Social Research Council (ESRC) and Engineering and Physical Sciences Research Council (EPSRC)
- 2003 Finalist for a Beyond Grey Pinstripes Faculty Pioneer Award ("Rising Star" category) from the World Resources Institute and the Aspen Institute for Social Innovation through Business (nominated by the Faculty of Management, McGill University)
- 2002 Le Prix Alma Lepage de l'École des Hautes Études Commerciales (HEC) de Montréal for the best case study of women and leadership, for *"Imaginez un printemps silencieux... : Rachel Carson, biologiste, pionnière du courant environnementaliste"* (co-authored with Francine Richer and Veronika Kisfalvi)
- 2001 Academy of Management "Organization and Natural Environment (ONE)" Best Doctoral Dissertation Award, for *"Sustainable Development, Strategy & Substitution: Lessons from a Study of the Process of Eliminating DDT from the Economy"*
- 2000 McGill University's "Royal Bank Faculty Associate in Teaching Fellowship" (\$ 6,000), for the development and implementation of the "Pedagogy Excellence Project" in the Faculty of Management (with Professor Mary Dean Lee)
