WELCOME FROM THE VICE-CHANCELLOR

Thank you for expressing an interest in the key leadership role of Deputy Vice-Chancellor (Research) at the University of Sydney. One of the world's top research universities, we pride ourselves on the excellence and impact of our research, which draws on multi-disciplinary expertise and is deeply engaged with industry, government, and the communities we serve. Our cutting-edge research and the insights of our world-leading scholars also inform our teaching, greatly benefitting the Sydney student experience.

Despite the unique challenges of the pandemic, the University of Sydney has not only maintained but has strengthened its research activity. We have been at the forefront of scientific research into COVID-19, as well applying our significant expertise in a wide variety of disciplines to develop insights into a number of pandemic-related issues from public policy to vaccine hesitancy and mental health. We continue to excel in terms of impact and were ranked 2nd in the world and 1st in Australia in the 2021 Times Higher Education Impact Rankings, reflecting our 'leadership for good' mission and our contribution to a more sustainable future, both locally and globally. From housing affordability to public transport infrastructure, heat stress, biodiversity and conservation, solar cell technology, 3D imaging,

robotics, space research, and many more, Sydney researchers engage with a range of 'wicked problems' and are at the forefront of both academic excellence and practical innovation.

At a uniquely exciting time in our institutional trajectory and as we approach the start of a new strategic planning cycle at the University of Sydney, the Deputy Vice-Chancellor (Research) will have the opportunity to work strategically across the executive and the academic community to strengthen even further our research activity and output, fostering quality, rigour, integrity, collaboration, engagement, impact, entrepreneurship, and innovation.

Thank you again for your interest in joining us at the University of Sydney, I look forward to hearing from you soon.

Professor Mark Scott AO
Vice-Chancellor and Principal

ABOUT THE ROLE

The University of Sydney is one of the world's great research universities and our research activities call for deep engagement with industry, community and government. The Deputy Vice-Chancellor (Research) is responsible for leadership and the achievement of Research Strategy aspirations and associated goals for the University.

This will occur through an integrated and coherent University-wide approach to planning, delivering, managing, funding and communicating research achievements. It will demonstrably provide a culture of support for researchers engaged in internationally recognised, transformational research. In particular, the Deputy Vice-Chancellor (Research) will lead the strategic collaborative programs identified by University Executive, in consultation with faculties, Multi-Disciplinary Initiatives and external partners and stakeholders who are core to the University's Research Strategy.

The Deputy Vice-Chancellor (Research) Portfolio

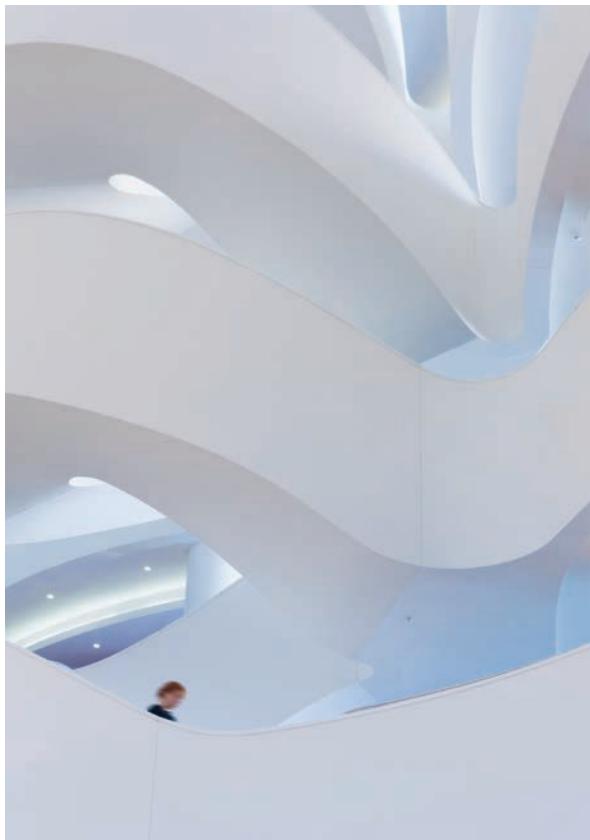

Reporting directly to the Vice-Chancellor, the Deputy Vice-Chancellor (Research) is a member of the University Executive and is expected to play a key role in enabling the delivery of University-wide strategy, including a high performance culture. The Deputy Vice-Chancellor (Research) will contribute fully to the deliberations of the University's principal decision-making body for all significant matters of University strategy, management, administration and related policy.

The Deputy Vice-Chancellor (Research) leads the pursuit of outstanding fundamental and applied research across the institution. The role ensures the continuous improvement and success of the University's Multidisciplinary Initiatives, core research facilities, the commercialisation of research and industry research partnerships, global research partnerships, research ethics and integrity, and in partnership with the Chief Data Officer, also provides leadership of research analytics.

Among the direct reports of the Deputy Vice-Chancellor (Research) are the:

- Pro Vice-Chancellor (Research)
- Pro Vice-Chancellor (Global Engagement)
- Pro Vice-Chancellor (Industry Engagement and Commercialisation)
- Executive Director, Research Operations
- General Manager, Office of the Deputy Vice-Chancellor (Research)
- CEO, United States Studies Centre
- CEO, Sydney Quantum Academy
- Director, Aboriginal and Torres Strait Islander Research
- Director, Research Reporting Analysis Data & Systems
- Director, Research Integrity and Ethics Administration

Skills, Capabilities, and Experience

Holding a PhD or equivalent qualification, the appointee will bring significant credibility as a world-class researcher and scholar and extensive research leadership experience. At a time of increased competition, they will demonstrate the capacity and experience to continue to improve academic research performance, enabling innovation and effectively managing change and quality assurance. They will demonstrate an acute understanding of domestic and international research funding environments, and be deeply familiar with research standing indicators, metrics, rankings, and markers of esteem, and research infrastructure needs across the multiple disciplines represented at a comprehensive research university. They will combine the interpersonal skills and commercial nous required to engage across industry, government and community in areas of research commercialisation, translation, and impact with the capacity to engage effectively with the academic and research community, fostering multi-disciplinary and multi-institutional collaboration. Well-versed in best practice and the latest trends in research management systems, they will also be a highly effective leader across professional and academic staff in the portfolio. Finally, the role presents an opportunity to contribute to the development and implementation of a new University Strategy in 2022 and the appointee will require the vision and maturity to do so in the context of the portfolio, the Executive Team, and across the institution.

ABOUT THE UNIVERSITY OF SYDNEY

As Australia's first university, we have been harnessing the power of education and research to transform the world for nearly 170 years. Proud as we are of our history, we are even more excited about our future.

The University of Sydney is one of the world's leading comprehensive research and teaching universities – ranked 2nd in the world for impact¹ and 4th in the world for graduate employability.²

We teach and research across an incredible breadth and depth of subjects and disciplines with the aim of making lives better, not just by producing leaders,

but by supporting the development of knowledge and innovation with genuine benefit to society.

Year after year, we are ranked among the top universities in the world for the quality of our teaching and research, graduate employability, breadth of subjects, student mobility, and generosity of scholarships.

We are a diverse community of students and staff from more than 170 countries. Our values – courage and creativity; respect and integrity; diversity and inclusion; openness and engagement – are embedded into everything we do, creating a culture in which every member of our community is valued and supported to thrive.

Research for Australia 2018-19 report

Our research

The University of Sydney is recognised as one of the top research universities in the world. All of our 22 broad fields of research are ranked at world standard or above in the latest Excellence in Research Australia report, and we are 2nd in the world in the 2021 Times Higher Education Impact Rankings.

These measures demonstrate the success of our 2016–20 Strategic Plan initiatives to triple our investment in research; establish new multidisciplinary initiatives; upgrade our facilities; develop new funding opportunities; and provide mentoring and training to support researchers at every stage of their careers.

Sydney is home to several multidisciplinary research initiatives, which bring together academics from diverse fields to lead innovation in established and developing areas of strength, while also creating educational opportunities for our students. The University of Sydney Nano Institute, for example, is taking the field of nanoscience to new levels through multidisciplinary projects and dedicated scholarships for students and research fellows.

Research excellence requires the latest technology, which is why we're investing in core research facilities that provide access to high-end infrastructure, along with a range of services to assist researchers with specialist applications. Our facilities include the Research and Prototype Foundry, which offers instruments for the fabrication of devices with features on the micro and nanoscale; Sydney Analytical, with capabilities in material, chemical

and biological analysis; and Sydney Imaging, with a comprehensive suite of preclinical and clinical imaging modalities and a hybrid theatre.

We are also building strategic partnerships with leading corporate, community and government organisations to address authentic issues, and develop products, systems and services at the forefront of business. For example, our multi-year partnership with Microsoft establishes ongoing investment at the Sydney Nanoscience Hub, as Microsoft moves from research to real-world engineering of quantum machines. Meanwhile, our continuing partnership with Qantas is developing flight-planning systems that will help the airline optimise routes, reduce fuel consumption and improve operational effectiveness.

In 2020 we had significant commercialisation activity, with 31 commercial deals closed and another 52 prospects in the pipeline. Highlights included Kinoxis Therapeutics, a University spin-out formed in February 2019, completing a Series A2 financing round of \$5 million, with most of these funds coming from existing shareholders. The innovation pipeline remains strong at both ends of the lifecycle, with 151 invention disclosures submitted over the course of the year and seven University spin-off companies created, of which the University continues to hold equity in five.

Our campuses

Located close to the heart of Australia's largest and most international city, our Camperdown/Darlington Campus features a mixture of iconic Gothic-revival buildings and state-of-the-art teaching, research and student support facilities.

The University has several other facilities across the state, for example, our farms and research units at the Camden Campus, and clinical schools in hospitals across the city and in rural NSW. Other faculties and schools have their own dedicated campuses, such as the Sydney Conservatorium of Music in the heart of Sydney's CBD, near the Sydney Opera House, and Sydney Dental School in Surry Hills.

The future of our campuses

We are investing in significant infrastructure development to meet the changing needs of 21st century students and staff and keep our work at the cutting edge.

Work is well underway on our new Engineering and Technology Precinct; and the Susan Wakil Health Building, a multidisciplinary facility that co-locates the faculties of nursing and health sciences near the Royal Prince Alfred Hospital, has recently opened.

The Chau Chak Wing Museum, near the Quadrangle on our Camperdown Campus, also opened in 2021 and facilitates better object-based learning and public access to our significant collections of art, antiquities, culture and natural history. Exhibitions display historic and contemporary art and tell diverse stories from the perspective of Australia's First Nations People alongside the ancient cultures of the Mediterranean, Middle East, China and beyond.

A key focus of the University's next era of strategic growth is western Sydney, where we are working towards the establishment of a large scale multidisciplinary research and teaching campus at Parramatta/Westmead, focusing on areas that address the challenges of disruption at the intersection of technology and the human experience.

The upgraded Westmead Hospital Clinical Precinct will position us at the centre of transformational health services, research and education in western Sydney. To date, we have invested around \$80 million at Westmead, providing new education facilities, upgrades to existing spaces, and a suite of programs and initiatives alongside our partners at the precinct.

For more about campus developments, visit

Our teaching

Recognised as leaders in education and student experience, the University of Sydney is ranked 4th in the world and 1st in Australia for graduate employability¹. Looking ahead to a future of work that will be very different, it is our ambition that our students will complete their degrees with the confidence and ability to think critically, collaborate productively and influence the world.

Over the past four years, we have transformed our undergraduate curricula with our future students front of mind. The reimagined framework embeds all undergraduate degrees with graduate qualities for the 21st century, an emphasis on industry experience and global perspectives and common components to support flexibility and cross-disciplinary learning.

We have created a new high achiever's stream to extend enrichment opportunities, and a new double degree option. Through one extra year of study, students have greater access to advanced coursework and research pathways.

Our courses connect students with industry experts and potential employers through internships and collaborative projects.

We also have the largest global student mobility program in Australia, partnering with more than 250 universities in more than 40 countries to provide wide opportunities for exchange and study abroad.

We offer our students an unforgettable student experience through a diverse range of community and co-curricular opportunities. Our student union has been the heart of campus life since 1874, organising events and programs through more than 250 student clubs and societies.

Paving the way for the future of our executive education and postgraduate coursework is our first micro-credential, the new Sydney Professional Certificate. We will be delivering more opportunities for mid-career postgraduate education and lifelong learning, high quality online and hybrid models for postgraduate teaching, and shorter-form award and non-award postgraduate programs.

We are also introducing a new coursework component to our PhD degrees – a first of its kind in Australia – and broadening the coursework options for our other postgraduate research degrees to support research capabilities and the success of our students in a changing world.

1. QS Graduate Employability Rankings 2022

Our distinctive alumni

Our alumni have achieved remarkable feats and are consistently ranked among the world's most employable graduates. They include Nobel laureates, Pulitzer prize winners, Australian prime ministers, humanitarians, teachers, inventors, medical innovators, and thousands like them who have changed lives all around the world – people like Eddie Woo, who is revolutionising the way we teach mathematics; Dr Anna Lau, who is making inroads in the fight against Ebola; Colin Sullivan, who invented the CPAP machine, a life-saving device for sleep apnoea; Jack Manning Bancroft, Indigenous mentor and founder of the AIME program; and Marie Bashir, former chancellor of the University and governor of New South Wales.

ORGANISATIONAL STRUCTURE

*These roles include the following: Head and School and Dean, University of Sydney School of Architecture, Design and Planning; Head of School and Dean, the Sydney Conservatorium of Music and Head of School and Dean, the University of Sydney Law School.

STRATEGIC ACHIEVEMENTS

Research

We tripled our funding in research

We signed 20 partnerships with international universities, generating 296 co-invested research projects.

The number of our highly cited researchers increased from 6 in 2015 to 17 in 2019.

We strengthened research links with China by establishing a University of Sydney Centre in China.

Education

We simplified our structure with 5 faculties and 3 schools to streamline our disciplinary expertise.

We introduced a new undergraduate curriculum to prepare students for a rapidly changing world.

33% of our students had a global mobility experience.

1000+ of our students enrolled in Industry and Community Project Units, leading to strategic partnerships with leading industry, government and community organisations across the world.

Culture

We received an Athena SWAN Bronze Award in recognition of our commitment to the Science in Australia Gender Equity initiative.

INSPIRED

Our INSPIRED philanthropic campaign saw the University become the first in Australia to raise **\$1 billion** from **64,000+** donors, providing:

53% of our executive team are women

\$368 million towards life-changing medical research

50% of our staff were born overseas

2000+ scholarships and education initiatives

Infrastructure

We established several major multidisciplinary initiatives, including the University of Sydney Nano Institute, Sydney Policy Lab, Charles Perkins Centre, and the Marie Bashir Institute for Infectious Diseases and Biosecurity.

We transformed our campuses with significant development, including 8 major university buildings and 3 new student accommodation facilities.

HIGHER EDUCATION IN AUSTRALIA

While Australia's educational institutions may be younger than their counterparts in other parts of the world, they are consistently ranked in the top tier for research and education.

Australia is home to a large number of world-leading universities which continue to rank among the world's best in annual reports published by leading bodies such QS, THE and ARWU.¹ Australia has more of the top 200 universities per capita than the US, UK and Germany.²

Our education system is highly popular, with a majority of young adults choosing to pursue tertiary education. Recent OECD data shows an increase to 51% in the number of young Australians with a tertiary degree – up 9% in the last decade and well above the OECD average of 44%.³ This is reflected in Australia's low unemployment and highly skilled workforce.

Australia is also highly rated in the U21 Ranking of National Higher Education Systems, ahead of France, Germany, Norway and Japan.⁴

In Australia, outstanding education is married with world-leading research. The latest Excellence in Research for Australia report clearly showed that much of Australia's research is above world standard,

particularly at the University of Sydney, where all of our 22 broad fields of research are ranked at world standard or above.⁵

In terms of publications, Australia accounted for more than 3% of the world's top 10% of most-cited scientific publications in 2016, competitive with Canada, Japan and France. Data on the international mobility of scientific authors shows that Australia attracted more researchers than it lost between 2012-16,⁶ showing the country's strong appeal as a place to conduct quality research.

Institutions in Australia are well-known and highly regarded in a range of subject areas including arts and humanities, medicine, engineering and technology and physical sciences. Sydney and New South Wales are home to eight medical research hubs and 14 major teaching hospitals, in addition to several research centres, and the Sydney Innovation and Technology Precinct.

Images of Australia: Bondi beach; Uluru; Sydney Opera House; Bondi Icebergs outdoor pool; Great Barrier Reef

Australia offers a unique opportunity to engage with Asian, American and European markets. Sydney in particular is a hub of research and innovation activity, showing how industry, universities and government can work together, and a centre of business; around 60% of all Asia-Pacific regional headquarters are in Sydney.

The value of universities is very clear in the Australian context. Universities contribute some \$150 billion⁷ to the Australian economy; are in the vanguard of Australia's research, development and innovation agenda; constitute an export industry worth \$38 billion annually,⁸ and provide direct and indirect employment to a quarter of a million Australians.⁹

Australia has been identified as the third most popular study destination for international students; who also report almost 90% satisfaction scores for their experience here.¹⁰ Almost all of our major cities are cited among the world's most appealing places to study.¹¹

LIVING AND WORKING IN SYDNEY

Australia's biggest city, Sydney is consistently ranked as one of the world's best cities for quality of living and safety.¹

From stunning Sydney Harbour to iconic beaches such as Bondi, Sydney's natural beauty is world famous. The wider city area is home to gorgeous national parks where you can encounter Australian wildlife, hidden waterfalls and private beaches. The city is surrounded by coastline to the east, the Blue Mountains to the west and bushland to the north and south.

Sydney is one of the most multicultural cities in the world, with a proudly diverse and inclusive culture; only 17% of inhabitants were born in Australia.² This multiculturalism has shaped the local customs, leisure activities, cultural scene, shops and cuisine. Within a short walk of our Camperdown Campus, you can find restaurants serving Thai, Vietnamese, Japanese, Korean, Italian, Mexican, Indian, Pakistani, Spanish, Chinese, Malaysian, Greek, Lebanese and Turkish food.

The University of Sydney is committed to diversity and social inclusion. Applications from people of culturally and linguistically diverse backgrounds; equity target groups including women, people with disabilities, people who identify as LGBTIQ; and people of Aboriginal and Torres Strait Islander descent, are encouraged.

Term of Appointment

The position is fixed-term for an initial period of five years on a full-time basis.

Salary

The successful candidate will be offered an attractive remuneration package commensurate with the responsibilities of the position and the candidate's relevant experience and qualifications.

Salary sacrificing options are also available under the University's Flexible Remuneration Packaging Scheme. Provision is also made for limited private consulting in accordance with the University's regulations.

A range of superannuation options will be available to the successful candidate. By law, the University is required to make employer superannuation contributions equivalent to 10% of salary (called 'Superannuation Guarantee' contributions). The successful candidate may elect to have Superannuation Guarantee contributions made to a complying fund of their choice, or to have a higher level of contributions (currently 17% of salary) made to 'UniSuper'. The components of the successful candidate's remuneration package will reflect their choice of superannuation arrangements.

Relocation Assistance for Candidates Moving to Sydney

Where the successful candidate is required to move to Sydney from their present place of residence, the University will assist with reasonable air travel and relocation expenses for the candidate and accompanying family members.

All prospective or appointed staff members to the University must have the relevant right to work in Australia before commencing employment at the University. Visa sponsorship will be made available if required.

Conditions

Your employment is conditional upon the completion of all role required pre-employment or background checks in terms satisfactory to the University. Similarly your ongoing employment is conditional upon the satisfactory maintenance of all relevant clearances and background check requirements. If you do not meet these conditions, the University may take any necessary step, including the termination of your employment.

Working Environment and Staff Benefits

If you want to engage with brilliant minds, are willing to push boundaries, and believe in making a positive difference, you've come to the right place. Our people come from all cultures and backgrounds and enjoy a true sense of community and belonging.

We recognise that our talented staff are invaluable and we support them to achieve their career ambitions and follow their dreams. Using our outstanding local and global networks, we can offer flexibility, responsibility, personal and professional development, and much more.

We welcome open minds, curiosity, and a readiness to tackle big questions – and we reward it accordingly. Our people are part of an exciting environment where development is encouraged and intellectual pursuits foster a sense of purpose and confidence. We are also committed to diversity and equal opportunity. We're proud to be recognised as a silver employer of choice for the Australian Workplace Equality Index. To find out more about our work on diversity and inclusion, please visit: sydney.edu.au/about-us/vision-and-values/diversity.html

In addition to a competitive base salary, we offer a wide variety of financial and non-financial benefits to our staff. To find out more, please visit: sydney.edu.au/about-us/careers-at-sydney/staff-benefits.html

Inside the Charles Perkins Centre, a multidisciplinary research centre committed to improving global health.

HOW TO APPLY

The University of Sydney will be supported in its global search for this appointment by the executive search firm Perrett Laver. Please contact Perrett Laver if you wish to discuss this role further in confidence.
