# WELCOME FROM THE VICE-CHANCELLOR

Thank you for expressing an interest in the key leadership role of Deputy Vice-Chancellor (Education) at the University of Sydney. The position oversees our whole-of-University Education Portfolio, the hallmarks of which are its deep commitment to continued innovation in teaching and learning and providing our students with an optimal University experience.

Unsurprisingly, the start of the 2021 academic year has been affected by the circumstances of the ongoing pandemic, including the need to ensure a smooth 'return to campus' and hybrid learning opportunities for our students here in Australia and to continue to provide an excellent remote learning experience for those still overseas. It is however also a time of cautious optimism, thanks to the easing of public health restrictions and the start of Australia's vaccination program.

It is a uniquely exciting time to join with the University of Sydney, as the University builds on its strategic achievements to date and prepares to enter a new strategic planning cycle. In the education space, the last five years have been marked by significant undergraduate curriculum reform as well as closer alignment of the educational offering with the University's enterprise and engagement agenda. We have delivered this along with an investment in research (people, equipment, and physical infrastructure), and an emphasis on a values-based University-wide culture.

Recently ranked first in Australia and amongst the top five in the world for both impact (THE 2020) and employability (QS 2020), we

continue to broaden our footprint with the local communities in Sydney and to ensure an outstanding student experience while responding to ever-changing conditions, including COVID-19. We also remain committed to ensuring that all students are able to achieve their full potential irrespective of background, with a range of initiatives in place to support this aim.

It is a time of consolidation, adaptation and renewal here at Sydney and the next Deputy Vice-Chancellor (Education) will have an opportunity to build on the solid foundations of an Education portfolio that has already been largely reinvigorated at a university that continues to strengthen and innovate its students' educational experience.

Thank you again for your interest in the University of Sydney, I look forward to hearing from you soon.

**Professor Stephen Garton AM**  
Vice-Chancellor and Principal

# ABOUT THE UNIVERSITY OF SYDNEY

As Australia's first university, we have been harnessing the power of education and research to transform the world for nearly 170 years. Proud as we are of our history, we are even more excited about our future.

The University of Sydney is one of the world's leading comprehensive research and teaching universities – ranked 2nd in the world for impact<sup>1</sup> and 4th in the world for graduate employability.<sup>2</sup>

We teach and research across an incredible breadth and depth of subjects and disciplines with the aim of making lives better, not just by producing leaders,

but by supporting the development of knowledge and innovation with genuine benefit to society.

Year after year, we are ranked among the top universities in the world for the quality of our teaching and research, graduate employability, breadth of subjects, student mobility, and generosity of scholarships.

We are a diverse community of students and staff from more than 170 countries. Our values – courage and creativity; respect and integrity; diversity and inclusion; openness and engagement – are embedded into everything we do, creating a culture in which every member of our community is valued and supported to thrive.

## Our teaching

Recognised as leaders in education and student experience, the University of Sydney is ranked 4th in the world and 1st in Australia for graduate employability<sup>1</sup>. Looking ahead to a future of work that will be very different, it is our ambition that our students will complete their degrees with the confidence and ability to think critically, collaborate productively and influence the world.

Over the past four years, we have transformed our undergraduate curricula with our future students front of mind. The reimagined framework embeds all undergraduate degrees with graduate qualities for the 21st century, an emphasis on industry experience and global perspectives and common components to support flexibility and cross-disciplinary learning.

We have created a new high achiever's stream to extend enrichment opportunities, and a new double degree option. Through one extra year of study, students have greater access to advanced coursework and research pathways.

Our courses connect students with industry experts and potential employers through internships and collaborative projects.

We also have the largest global student mobility program in Australia, partnering with more than 250 universities in more than 40 countries to provide wide opportunities for exchange and study abroad.

We offer our students an unforgettable student experience through a diverse range of community and co-curricular opportunities. Our student union has been the heart of campus life since 1874, organising events and programs through more than 250 student clubs and societies.

Paving the way for the future of our executive education and postgraduate coursework is our first micro-credential, the new Sydney Professional Certificate. We will be delivering more opportunities for mid-career postgraduate education and lifelong learning, high quality online and hybrid models for postgraduate teaching, and shorter-form award and non-award postgraduate programs.

We are also introducing a new coursework component to our PhD degrees – a first of its kind in Australia – and broadening the coursework options for our other postgraduate research degrees to support research capabilities and the success of our students in a changing world.

1. QS Graduate Employability Rankings 2020

## Our distinctive alumni

Our alumni have achieved remarkable feats and are consistently ranked among the world's most employable graduates. They include Nobel laureates, Pulitzer prize winners, Australian prime ministers, humanitarians, teachers, inventors, medical innovators, and thousands like them who have changed lives all around the world – people like Eddie Woo, who is revolutionising the way we teach mathematics; Dr Anna Lau, who is making inroads in the fight against Ebola; Colin Sullivan, who invented the CPAP machine, a life-saving device for sleep apnoea; Jack Manning Bancroft, Indigenous mentor and founder of the AIME program; and Marie Bashir, former chancellor of the University and governor of New South Wales.

## Our research

The University of Sydney is recognised as one of the top research universities in the world. All of our 22 broad fields of research are ranked at world standard or above in the latest Excellence in Research Australia report, and we are 2nd in the world in the 2020 Times Higher Education Impact Rankings.

These measures demonstrate the success of our 2016–20 Strategic Plan initiatives to triple our investment in research; establish new multidisciplinary initiatives; upgrade our facilities; develop new funding opportunities; and provide mentoring and training to support researchers at every stage of their careers.

We are particularly proud of our 9 multidisciplinary research initiatives, which bring together academics from diverse fields to lead innovation in established and developing areas of strength, while also creating educational opportunities for our students. The University of Sydney Nano Institute, for example, is taking the field of nanoscience to new levels through multidisciplinary projects and dedicated scholarships for students and research fellows.

Research excellence requires the latest technology, which is why we're investing in core research facilities that provide access to high-end infrastructure, along with a range of services to assist researchers with specialist applications. Our facilities include the Research and Prototype Foundry, which offers instruments for the fabrication of devices with features on the micro and nanoscale; Sydney Analytical, with capabilities in material, chemical

and biological analysis; and Sydney Imaging, with a comprehensive suite of preclinical and clinical imaging modalities and a hybrid theatre.

We are also building strategic partnerships with leading corporate, community and government organisations to address authentic issues, and develop products, systems and services at the forefront of business. For example, our multi-year partnership with Microsoft establishes ongoing investment at the Sydney Nanoscience Hub, as Microsoft moves from research to real-world engineering of quantum machines. Meanwhile, our continuing partnership with Qantas is developing flight-planning systems that will help the airline optimise routes, reduce fuel consumption and improve operational effectiveness.

In 2020 we had significant commercialisation activity, with 31 commercial deals closed and another 52 prospects in the pipeline. Highlights included Kinosis Therapeutics, a University spin-out formed in February 2019, completing a Series A2 financing round of \$5 million, with most of these funds coming from existing shareholders. The innovation pipeline remains strong at both ends of the lifecycle, with 151 invention disclosures submitted over the course of the year and seven University spin-off companies created, of which the University continues to hold equity in five.

Learn more about our research and its impact.

## Our campuses

Located close to the heart of Australia's largest and most international city, our Camperdown/Darlington Campus features a mixture of iconic Gothic-revival buildings and state-of-the-art teaching, research and student support facilities.

The University has several other facilities across the state, for example, our farms and research units at the Camden Campus, and clinical schools in hospitals across the city and in rural NSW. Other faculties and schools have their own dedicated campuses, such as the Sydney Conservatorium of Music in the heart of Sydney's CBD, near the Sydney Opera House, and Sydney Dental School in Surry Hills.

## The future of our campuses

We are investing in significant infrastructure development to meet the changing needs of 21st century students and staff and keep our work at the cutting edge.

Work is well underway on our new Engineering and Technology Precinct; and the Susan Wakil Health Building, a multidisciplinary facility that co-locates the faculties of nursing and health sciences near the Royal Prince Alfred Hospital, has recently opened.

The Chau Chak Wing Museum, near the Quadrangle on our Camperdown Campus, also opened in 2021 and facilitates better object-based learning and public access to our significant collections of art, antiquities, culture and natural history. Exhibitions display historic and contemporary art and tell diverse stories from the perspective of Australia's First Nations People alongside the ancient cultures of the Mediterranean, Middle East, China and beyond.

A key focus of the University's next era of strategic growth is western Sydney, where we are working towards the establishment of a large scale multidisciplinary research and teaching campus at Parramatta/Westmead, focusing on areas that address the challenges of disruption at the intersection of technology and the human experience.

The upgraded Westmead Hospital Clinical Precinct will position us at the centre of transformational health services, research and education in western Sydney. To date, we have invested around \$80 million at Westmead, providing new education facilities, upgrades to existing spaces, and a suite of programs and initiatives alongside our partners at the precinct.

For more about campus developments, visit

# ORGANISATIONAL STRUCTURE

\* These roles include the following: Head of School and Dean, The University of Sydney School of Architecture, Design and Planning; Head of School and Dean, Sydney Conservatorium of Music; and Head of School and Dean, The University of Sydney Law School.

# STRATEGIC ACHIEVEMENTS

## Research

We tripled our funding in research

We signed 20 partnerships with international universities, generating 296 co-invested research projects.

The number of our highly cited researchers increased from 6 in 2015 to 17 in 2019.

We strengthened research links with China by establishing a University of Sydney Centre in China.

## Education

We simplified our structure with 5 faculties and 3 schools to streamline our disciplinary expertise.

We introduced a new undergraduate curriculum to prepare students for a rapidly changing world.

33% of our students had a global mobility experience.

1000+ of our students enrolled in Industry and Community Project Units, leading to strategic partnerships with leading industry, government and community organisations across the world.

## Culture

We received an Athena SWAN Bronze Award in recognition of our commitment to the Science in Australia Gender Equity initiative.

## INSPIRED

Our INSPIRED philanthropic campaign saw the University become the first in Australia to raise \$1 billion from 64,000+ donors, providing:

53% of our executive team are women

\$368 million towards life-changing medical research

50% of our staff were born overseas

2000+ scholarships and education initiatives

## Infrastructure

We established several major multidisciplinary initiatives, including the University of Sydney Nano Institute, Sydney Policy Lab, Charles Perkins Centre, and the Marie Bashir Institute for Infectious Diseases and Biosecurity.

We transformed our campuses with significant development, including 8 major university buildings and 3 new student accommodation facilities.

# HIGHER EDUCATION IN AUSTRALIA

While Australia's educational institutions may be younger than their counterparts in other parts of the world, they are consistently ranked in the top tier for research and education.

Australia is home to a large number of world-leading universities which continue to rank among the world's best in annual reports published by leading bodies such as QS, THE and ARWU.<sup>1</sup> Australia has more of the top 200 universities per capita than the US, UK and Germany.<sup>2</sup>

Our education system is highly popular, with a majority of young adults choosing to pursue tertiary education. Recent OECD data shows an increase to 51% in the number of young Australians with a tertiary degree – up 9% in the last decade and well above the OECD average of 44%.<sup>3</sup> This is reflected in Australia's low unemployment and highly skilled workforce.

Australia is also highly rated in the U21 Ranking of National Higher Education Systems, ahead of France, Germany, Norway and Japan.<sup>4</sup>

In Australia, outstanding education is married with world-leading research. The latest Excellence in Research for Australia report clearly showed that much of Australia's research is above world standard,

particularly at the University of Sydney, where all of our 22 broad fields of research are ranked at world standard or above.<sup>5</sup>

In terms of publications, Australia accounted for more than 3% of the world's top 10% of most-cited scientific publications in 2016, competitive with Canada, Japan and France. Data on the international movability of scientific authors shows that Australia attracted more researchers than it lost between 2012–16,<sup>6</sup> showing the country's strong appeal as a place to conduct quality research.

Institutions in Australia are well-known and highly regarded in a range of subject areas including arts and humanities, medicine, engineering and technology and physical sciences. Sydney and New South Wales are home to eight medical research hubs and 14 major teaching hospitals, in addition to several research centres, and the Sydney Innovation and Technology Precinct.

Images of Australia: Bondi beach; Uluru; Sydney Opera House; Bondi Icebergs outdoor pool; Great Barrier Reef

Australia offers a unique opportunity to engage with Asian, American and European markets. Sydney in particular is a hub of research and innovation activity, showing how industry, universities and government can work together, and a centre of business; around 60% of all Asia-Pacific regional headquarters are in Sydney.

The value of universities is very clear in the Australian context. Universities contribute some \$150 billion<sup>7</sup> to the Australian economy; are in the vanguard of Australia's research, development and innovation agenda; constitute an export industry worth \$38 billion annually,<sup>8</sup> and provide direct and indirect employment to a quarter of a million Australians.<sup>9</sup>

Australia has been identified as the third most popular study destination for international students; who also report almost 90% satisfaction scores for their experience here.<sup>10</sup> Almost all of our major cities are cited among the world's most appealing places to study.<sup>11</sup>

Australia's biggest city, Sydney is consistently ranked as one of the world's best cities for quality of living and safety.<sup>1</sup>

From stunning Sydney Harbour to iconic beaches such as Bondi, Sydney's natural beauty is world famous. The wider city area is home to gorgeous national parks where you can encounter Australian wildlife, hidden waterfalls and private beaches. The city is surrounded by coastline to the east, the Blue Mountains to the west and bushland to the north and south.

Sydney is one of the most multicultural cities in the world with a proudly diverse and inclusive culture; only 17% of inhabitants were born in Australia.<sup>2</sup> This multiculturalism has shaped the local customs, leisure activities, cultural scene, shops and cuisine. Within a short walk of our Camperdown Campus, you can find restaurants serving Thai, Vietnamese, Japanese, Korean, Italian, Mexican, Indian, Pakistani, Spanish, Chinese, Malaysian, Greek, Lebanese and Turkish food.

# ABOUT THE ROLE

The Deputy Vice-Chancellor (Education) is responsible for strategic leadership in education and will continue to guide the development and implementation of initiatives and policies designed to continually improve the quality of education delivered by the University.

## The Education Portfolio

The role oversees strategy, vision, and implementation of policy and initiatives pertaining to both teaching and learning and the student experience, including areas such as education policy development, innovation, learning technologies, learning and teaching analytics, and quality assurance. As outlined above (“Our teaching”), the portfolio has driven programs of significant reform in recent years, particularly in the areas of undergraduate curriculum, enterprise engagement, graduate employability, and both on-campus and remote learning. It remains committed to strong alignment of teaching and research, graduate outcomes, innovation, an outstanding student experience, and effective inter-Faculty collaboration and sharing of educational best practice across disciplinary boundaries.

The appointee is responsible for a portfolio of approximately 300 continuing and fixed-term staff, comprising among others the:

- Pro Vice-Chancellor (Student Life)
- Pro Vice-Chancellor (Education – Enterprise and Engagement)
- Pro Vice-Chancellor (Educational Innovation)
- Post Bachelor and Continuing Education
- Education Strategy
- Graduate Research
- Law Extension Committee
- Registrar
- Education Portfolio Operations

## Broader University and External Engagement

The Deputy Vice-Chancellor (Education) reports directly to the Vice-Chancellor and is a crucial member of the University’s Senior Executive Group (SEG) and its Education Committee and Research Training Committee, as well as the University’s Academic Board and its relevant Committees. Responsible for strategic leadership in education across the University, the Deputy Vice-Chancellor (Education) is expected to work closely with a range of colleagues and committees across the institution, most notably the Senior Executive Group, Academic Board and Senate (to whom it reports on matters relating to teaching and learning), as well as relevant Associate Deans (Teaching and Learning) and the academic leadership in Faculties. Importantly, the role also represents the University externally in forums such as the Group of Eight and Universities Australia.

## Skills, Capabilities, and Experience

The appointee will be an accomplished scholar and an outstanding and proven academic leader in the realms of learning and teaching and the student experience, able to operate strategically at the whole-of-University level and with a clear grasp of trends in the sector locally and internationally. They will also demonstrate experience in delivering improvements to academic performance, educational innovation, student life and quality assurance. Importantly, they will demonstrate knowledge of and the capacity and sensitivity to develop deeper understanding of Indigenous issues, including the University of Sydney's 2021-24 Indigenous strategy's commitment to support the most promising students to achieve their full potential. Collegial and effective, the appointee will also bring personal qualities and an effective communication and leadership style such that will enable them to operate

successfully within their Portfolio as well as in key interactions with a complex set of stakeholders across the University (Senior Executive Group; Academic Board; Senate; individual Faculties) and when representing the University externally.

In their approach to the Education Portfolio, the appointee will demonstrate a strategic and visionary outlook and a penchant for educational innovation along with alignment to and enthusiasm for the University of Sydney's ongoing commitment to the research-teaching nexus, inter-Faculty and cross-disciplinary approach to educational best practice and academic performance, graduate outcomes, employability and enterprise engagement, support for the most promising students irrespective of background, and a unique Sydney student experience.

## Terms of Appointment

The position is fixed-term for a period of initially five years on a full-time basis. Please note that a series of pre-employment checks will be conducted prior to appointment.

## Salary

The successful candidate will be offered an attractive remuneration package commensurate with the responsibilities of the position and the candidate's relevant experience and qualifications.

Salary sacrificing options are also available under the University's Flexible Remuneration Packaging Scheme. Provision is also made for limited private consulting in accordance with the University's regulations. A range of superannuation options will be available to the successful candidate. By law, the University is required to make employer superannuation contributions equivalent to 10% of salary (called 'Superannuation Guarantee' contributions). The successful candidate may elect to have Superannuation Guarantee contributions made to a complying fund of their choice, or to have a higher level of contributions (currently 17% of salary) made to 'UniSuper'. The components of the successful candidate's remuneration package will reflect their choice of superannuation arrangements.

## Working Environment and Staff Benefits

We welcome open minds, curiosity, and a readiness to tackle big questions – and we reward it accordingly. Our people are part of an exciting environment where development is encouraged and intellectual pursuits foster a sense of purpose and confidence. We are also committed to diversity and equal opportunity. We're proud to be recognised as a silver employer of choice for the Australian Workplace Equality Index. To find out more about our work on diversity and inclusion, please visit: [sydney.edu.au/about-us/vision-and-values/diversity.html](https://sydney.edu.au/about-us/vision-and-values/diversity.html)

In addition to a competitive base salary, we offer a wide variety of financial and non-financial benefits to our staff. To find out more, please visit: [sydney.edu.au/about-us/careers-at-sydney/staff-benefits.html](https://sydney.edu.au/about-us/careers-at-sydney/staff-benefits.html)

## Relocation Assistance for Candidates Moving to Sydney

Where the successful candidate is required to move to Sydney from their present place of residence, the University will assist with reasonable air travel and relocation expenses for the candidate and accompanying family members. Visa sponsorship will be made available.

The Vice-Chancellor's Courtyard is a walled garden a few steps from the Vice-Chancellor's office in the main Quadrangle. Paved with stone paths and home to a couple of bronze Roman statues - Mercury and Fortuna - it is a quiet oasis of camellias, azaleas, jacarandas and flame trees.

# HOW TO APPLY
