

Introduction

It is my very great pleasure to welcome you to the thirteenth issue of the *University of Sydney Papers in TESOL*. This issue has a focus on research carried out by masters and PhD students and we have contributions from Manchester Metropolitan University, Concordia University, the University of the Philippines Diliman, and the University of Queensland. We are delighted to have these cross-institutional contributions and hope this will continue further into the future.

Further information on the activities of the *University of Sydney TESOL Research Network* can be found at:
