

Recent publications arising from NSW BTRC tissue

- Ashton, M. K., *et al.* (2022). Sex differences in GABAA receptor subunit transcript expression are mediated by genotype in subjects with alcohol-related cirrhosis of the liver. *Genes Brain Behav.*, 21(4), e12785. <https://doi.org/10.1111/gbb.12785>
- Bitar, M., *et al.* (2022). Identifying gene expression profiles associated with neurogenesis and inflammation in the human subependymal zone from development through aging. *Sci. Rep.*, 12(1), 40. <https://doi.org/10.1038/s41598-021-03976-4>
- Chen, W. Y., *et al.* (2021). Transcriptomics identifies STAT3 as a key regulator of hippocampal gene expression and anhedonia during withdrawal from chronic alcohol exposure. *Transl Psychiatry*, 11(1), 298. <https://doi.org/10.1038/s41398-021-01421-8>
- Clark, C. M., *et al.* (2021). Differential NPY-Y1 Receptor Density in the Motor Cortex of ALS Patients and Familial Model of ALS. *Brain Sci*, 11(8). <https://doi.org/10.3390/brainsci11080969>
- Clark, S. L., *et al.* (2022). Dual methylation and hydroxymethylation study of alcohol use disorder. *Addict. Biol.*, 27(2), e13114. <https://doi.org/10.1111/adb.13114>
- Cuzon Carlson, V. C., *et al.* (2022). Neurobeachin, a promising target for use in the treatment of alcohol use disorder. *Addict. Biol.*, 27(1), e13107. <https://doi.org/10.1111/adb.13107>
- De Carvalho, L. M., *et al.* (2021). Increased transcription of TSPO, HDAC2, and HDAC6 in the amygdala of males with alcohol use disorder. *Brain Behav*, 11(2), e01961. <https://doi.org/10.1002/brb3.1961>
- Deschaine, S. L., *et al.* (2022). A closer look at alcohol-induced changes in the ghrelin system: novel insights from preclinical and clinical data. *Addict. Biol.*, 27(1), e13033. <https://doi.org/10.1111/adb.13033>
- Despotovski, V., *et al.* (2021). Expression of reelin with age in the human hippocampal formation. *Hippocampus*, 31(5), 493-502. <https://doi.org/10.1002/hipo.23310>
- Farokhnia, M., *et al.* (2022). The glucagon-like peptide-1 system is modulated by acute and chronic alcohol exposure: Findings from human laboratory experiments and a post-mortem brain study. *Addict. Biol.*, 27(5). <https://doi.org/ARTN> e13211
- 10.1111/adb.13211
- Forrest, S. L., *et al.* (2021). Coexisting Lewy body disease and clinical parkinsonism in amyotrophic lateral sclerosis. *Eur. J. Neurol.*, 28(7), 2192-2199. <https://doi.org/10.1111/ene.14849>
- Gabery, S., *et al.* (2021). Loss of the metabolism and sleep regulating neuronal populations expressing orexin and oxytocin in the hypothalamus in amyotrophic lateral sclerosis. *Neuropathol Appl Neurobiol*, 47(7), 979-989. <https://doi.org/10.1111/nan.12709>
- Gabery, S., *et al.* (2021). Early white matter pathology in the fornix of the limbic system in Huntington disease. *Acta Neuropathol.*, 142(5), 791-806. <https://doi.org/10.1007/s00401-021-02362-8>
- Gatta, E., *et al.* (2021). Epigenetic Regulation of GABAergic Neurotransmission and Neurosteroid Biosynthesis in Alcohol Use Disorder. *Int. J. Neuropsychopharmacol.*, 24(2), 130-141. <https://doi.org/10.1093/ijnp/pyaa073>

Recent publications arising from NSW BTRC tissue

- Gregersen, E., *et al.* (2021). Alpha-synuclein activates the classical complement pathway and mediates complement-dependent cell toxicity. *J. Neuroinflammation*, 18(1), 177. <https://doi.org/10.1186/s12974-021-02225-9>
- Grima, N., *et al.* (2022). Simultaneous Isolation of High-Quality RNA and DNA From Postmortem Human Central Nervous System Tissues for Omics Studies. *J Neuropathol Exp Neurol*, 81(2), 135-145. <https://doi.org/10.1093/jnen/nlab129>
- Guennewig, B., *et al.* (2021). Defining early changes in Alzheimer's disease from RNA sequencing of brain regions differentially affected by pathology. *Sci. Rep.*, 11(1), 4865. <https://doi.org/10.1038/s41598-021-83872-z>
