

Thank you for your interest in our study. There are two important criteria which will determine if you are potentially eligible to take part in this study:

- 1) You have had an early-stage melanoma, that was localised to the skin, and
- 2) Your treating doctor is participating in this trial

Participants for the MELSELF study will be recruited from these four sites

Clinic Name	Location	Leading Clinician
Sydney Melanoma Diagnostic Centre	Royal Prince Alfred Hospital (RPAH)	Professor Pascale Guitera
Sydney Melanoma Trust	Melanoma Institute Australia – The Poche Centre (MIA)	Dr Linda Martin
Sydney Melanoma and Surgical Oncology	RPAH & MIA	Professor Robin Saw
Newcastle Skin Check	Newcastle	Dr Tony Azzi

If you are attending one of these clinics, please ask your doctor for more information about the trial and discuss your eligibility to participate at your next scheduled visit.
