**Attachment of original certified copy of your official academic transcript showing details of the units/subjects and a detailed outline for each of the unit/subjects listed above.							

†Credit point values vary between different universities; therefore information about credit point values at the university at which you completed your pre-requisites is required to assess the relative volume of study.

*Pre-requisite studies completed more than 10 years before the time of application may be considered at the Dean's discretion

** The unit of study outlines should come from an official publication of the Provider University, such as the School handbook. Your application for admission to the Doctor of Veterinary Medicine will not be considered without this information.

C. Additional Information

This information will be used as part of the selection process for all graduate entry applicants to the Doctor of Veterinary Medicine. A digital copy of your signed admission statement and supporting documents must be uploaded and attached to your online application for the Doctor of Veterinary Medicine.

The purpose of the following information is to determine your interest in, and commitment to animal health and welfare, a career in veterinary practice, industry or research as well as non-veterinary interests and achievements.

For animal and veterinary related experience and employment, you should provide evidence of this through relevant experience in some or all of the following areas:

- Animal production industries such as sheep, cattle, pigs, goats, horses and poultry
- Veterinary clinical practices
- Other relevant animal industry experience including government bodies, charities and research organisations

You must attach supporting documents as evidence for each experience listed (reference, certificate, statement from employer, etc).

To be considered for admission, you must have completed a **minimum of 4 weeks of relevant experience, a substantial portion of which must have been completed within the 2 years prior to application** (the equivalent of 28 working days). The experience must involve direct contact and hands-on experience with animals. Ideally, some of this experience would be completed in a veterinary practice. This is to enable our students to make a smooth transition into the Veterinary Teaching Hospital environment.

i. Experience and Employment Information

Please outline your animal, veterinary and non-veterinary experience and employment details by completing the table provided at the end of the form. **Insert additional copies of the table as required to outline all of your experiences.** Please complete one table for each work experience/employment location (see example below). Please note, by providing the following information and contact details, you are providing consent for us to contact the listed establishments to confirm/clarify your experience.

Your supporting document/s should be attached as a single digital file with your online application.

iv. Personal Statement

Your personal statement is a one-page essay (not to exceed 3,000 characters) that gives veterinary admissions committees a clear picture of who you are and, most importantly, **why you want to pursue a career in veterinary medicine.** (Please look at the DVM admissions guide for guidance on writing your personal statement).

I certify that all details I have provided are complete and correct. I am aware that University Admissions staff may contact the organisations listed to verify my experiences. I authorise the University of Sydney to obtain any document or information from any institution or business I have attended and to take other steps as necessary to verify the accuracy of information provided. I understand that my application for admission and any offer of admission or enrolment may be varied or cancelled if any information supplied by me is incorrect or incomplete.
