The Sydney undergraduate experience

The University of Sydney experience is like no other in Australia. Our flexible degrees prepare you for a future full of possibilities.

Design your own degree to create the study path that’s right for you. You can gain expertise in more than one field by choosing from our range of professional, specialist or liberal studies, and combined and double degrees.

Prepare for your future career by working with industry leaders. No matter what you choose to study, you’ll have opportunities to undertake supported internships and work placements with industry leaders, so you’ll graduate ready to start your career.

Extend your skills and expertise to gain a competitive edge. You can tackle advanced course and project work through our combined Bachelor of Advanced Studies degrees, and boost your personal and professional skills with units from our Open Learning Environment.

Challenge your academic and leadership abilities and build your networks. Our unique Dalyell Scholars stream allows high-achieving students to access enrichment opportunities and exclusive units of study and work alongside other talented peer leaders.

Gain international experience to increase your future employability. We offer the largest study abroad and exchange program in Australia, so you can take advantage of opportunities all around the world.

“The learning isn’t confined to the classroom. Through internships and hands-on experiences, I’ve been able to apply my knowledge through innovative solutions to industry problems.”

Darren Zheng
Bachelor of Engineering Honours and Bachelor of Project Management

“At the University of Sydney, I had complete control over how I completed my degree. The ultimate flexibility and wide range of career opportunities offered through world-class industry partnerships were the draws for me.”

Daniel Kim
Bachelor of Commerce and Bachelor of Advanced Studies

“The strong student life on campus really appealed to me. I have made lifelong friendships both in and out of my course – the people really make this place what it is!”

Ruby Williamson
Bachelor of Design in Architecture
Diversify your studies

COMBINED BACHELOR OF ADVANCED STUDIES

Set yourself apart when you enter the job market with specialist skills and experience.

You can combine any eligible bachelor’s degree with our Bachelor of Advanced Studies, and graduate from two degrees with just one extra year of study.

You can tailor the Bachelor of Advanced Studies to your interests and goals by choosing a second major from the extensive range of subject areas in the shared pool. Then in your final year of study, you can extend your knowledge and critical thinking in one of two ways:

- **Advanced Coursework**: Undertake challenging, advanced units of study to deepen and apply your expertise. You will also build your professional networks and your problem-solving skills by working with one of our industry or community partners on a real-world project.
- **Honours**: Develop your analytical skills and take the next step towards further research opportunities, such as a PhD. You’ll complete an independent research project on a topic of your choosing, alongside related coursework to boost your research and discipline skills.

“*I have multiple interests, and kept this in mind when designing my degree. The flexibility that a combined degree with the Bachelor of Advanced Studies offered was the perfect solution. I could satisfy multiple interests by undertaking a major and various OLE’s that are separate to my main degree.*”

Sydney Haddad
Bachelor of Design Computing and Bachelor of Advanced Studies

*Admission into the honours pathway is subject to meeting the required academic standards and entry criteria for honours. For honours study options outside those available in the Bachelor of Advanced Studies, see sydney.edu.au/courses*
If your course allows access to our shared pool of majors and minors, you could study a couple of units or even an entire major or minor in a field that would usually sit outside your degree.

For example, you could enjoy learning Korean while studying science, or complement a major in marketing with the study of design.

You can pursue all your interests, acquire expertise in a second field of study and build interdisciplinary knowledge and skills, preparing you for your future career.

The courses that allow access to the shared pool are shown in the course tables on pages 39-71.

With more than 100 options to choose from, our shared pool of majors and minors allows you to explore a wide range of study areas.

Follow your interests. All of them.

"This degree has really been a dream come true for me because I get the best of both worlds. I never thought I would be able to do both psychology and media studies, but I'm so grateful that I can now pursue both of my core passions at the same time."

Adeline Chai
Bachelor of Arts and Bachelor of Advanced Studies

sydney.edu.au/bachelor-advanced-studies
Collaborate with industry and community partners

Work with leading business, government and community organisations on projects that will kickstart your professional experience and get you job ready.

Usually completed in your third or fourth year, this unique learning environment mirrors the realities of the workplace by partnering you with other students from across the University to address an authentic real-world issue, with the support of an academic lead.

Working alongside and learning from experts in your chosen field, you’ll develop highly sought-after skills such as professional communication, teamwork, complex problem solving and stakeholder management.

Many of our students have been offered employment opportunities as a direct result of their experience in these industry and community projects.

Previous projects have included:
− Closing the digital skills gap, for Adobe
− Data privacy and ethical design, for ANZ
− Reframing the museum for impact, for the Chau Chak Wing Museum
− Artificial intelligence and ethics in law and order, for IBM
− Reimagining university admissions for wider access to higher education, for the Universities Admissions Centre (UAC).

"I was lucky enough to be offered an internship with Randstad because of this unit. In the industry and community project units, you’ll learn how to work beyond a university setting and in a professional one. For me, personally, I discovered the career course I want to take in the future."

Emma Peake
Bachelor of Arts

Become a Dalyell scholar

Our unique Dalyell Scholars stream gives high-achieving students access to a range of enrichment opportunities and exclusive units of study that will challenge you alongside your talented peers.

As a Dalyell Scholar, in addition to completing exclusive units of study as part of your degree, you’ll have access to enrichment opportunities including:
− accelerated learning options, such as early access to advanced units of study
− peer, academic and professional mentoring programs
− professional skills development
− optional international experiences to develop your global perspective, with access to a global mobility scholarship (subject to availability).

If you achieve the required ATAR* and receive an offer to an eligible course, you can become a University of Sydney Dalyell Scholar. Full details are available at:
− sydney.edu.au/dalyell-scholars

*I The ATAR requirement for the Dalyell Scholars stream is 98+ for Aboriginal and/or Torres Strait Islander students admitted through the Badgall Program, 96+ for students admitted through the Early Offer Year 12 (E12) Scheme, Future Leaders Scheme or Broadway Scheme, and 98+ for all other students. You can also be invited to the Dalyell Scholars Stream if you do well in your first year at uni.

**B Education (Secondary: Mathematics) has been replaced by Bachelor of Education (Secondary)

"I’ve been exposed to many new perspectives. The Dalyell Scholars stream has been one of the most rewarding aspects of my time at University. It’s been great to interact with a variety of students on interdisciplinary projects, from different backgrounds and degrees."

Ben Nguyen
Bachelor of Education (Secondary: Mathematics)** and Bachelor of Science
The world is your campus

We have one of the largest global mobility programs in Australia*, opening up a world of experiences for you. We partner with more than 250 leading universities in over 40 countries, giving you access to global opportunities that will broaden your horizons and skills.

Our global opportunities offer a new perspective to your academic experience and enable you to develop the cultural competence and confidence for a truly global career.

Develop a global perspective

Opportunities include:
- 130 partner universities that are ranked in the top 200 worldwide**
- short-term (2–6 weeks), semester-long and year-long international study options, both in-person and virtual
- overseas field schools to tackle real-world problems
- intensive in-country units that allow you to study language and culture at a partner university
- short-term summer programs at prestigious universities, including Harvard, Yale and the London School of Economics
- professional placements that give you an opportunity to work and study in cities around the world during semester breaks.

We also offer financial support for international experiences, including a range of scholarships and grants to help cover your living and travel costs while you’re overseas. There are also government-funded OS–HELP loans.

And you can make the most of your time abroad with the Global Citizenship Award (GCA) – an extracurricular, internationally focused leadership development program that will help you transform your overseas experiences into tangible skills and graduate opportunities.

“Definitely do it! Making the decision to study overseas is one of those life-changing moments you won’t ever forget. It’s quite nerve-wracking to leave the comforts of home – but take the plunge and go be the person you know you want to be!”

Rifka Samsudeen
Bachelor of Commerce
Copenhagen Business School, Denmark

* Australian Universities International Directors’ Forum Learning Abroad Benchmarking 2019 (in 2020)
** Times Higher Education World University Rankings 2022
Support your career aspirations and interests by developing a unique skill set.

Our Open Learning Environment is designed to help you build novel skill combinations and extend your knowledge by exploring fields of study outside your course. It’s made up of a diverse collection of units of study that are each worth zero, two or six credit points. The zero-credit-point units are completed entirely online, at your own pace, and can be taken any time throughout the year. They are free, and don’t count towards your degree. The for-credit units combine independent online learning with workshops. Many courses allow you to count for-credit OLE units towards your degree. In many cases you can even try the zero-credit-point OLE unit first, to ensure it’s the right fit for you before upgrading to the for-credit version.

Some of the OLEs offered in 2022
- Boutique Brewing
- The Science of Health and Wellbeing
- Writing for the Digital World
- Cryptocurrency Markets and Investments
- The Apocalypse in Science and Culture
- Experience Korea

sydney.edu.au/students/ole-units
Which career is right for me?

Our advice is to start by doing what you enjoy and what inspires you. You can refine your study journey as you discover what you love.

We offer a wide range of courses, categorised into broad areas of interest. Use this table to ask yourself some key questions, and then match the subjects you enjoy and your aspirations with the subjects we teach.

Specific course details and admission criteria are available at:
- sydney.edu.au/courses

Scholarships

More than $135 million in scholarships available.

Chancellor’s Award
The Chancellor’s Award recognises domestic students who have achieved an outstanding result in their Year 12 studies. The award is worth $10,000 per year, for the duration of an undergraduate degree (some exclusions apply). It is awarded automatically to students who achieve an ATAR of 99.90+ (or equivalent).
- sydney.edu.au/scholarships/chancellors-award

Sydney Scholars Award
The Sydney Scholars Award is awarded to Year 12 students who demonstrate the skills and attributes to thrive at university, and who achieve excellent results in the final year of their studies. It is valued at $6,000 for the first year of an undergraduate course.
- sydney.edu.au/scholarships-ssp

Early Offer Year 12 (E12) Scheme Scholarship
This scholarship is available to students who are eligible for the Early Offer Year 12 (E12) admission scheme. In addition to receiving an early conditional offer, successful E12 applicants will receive a first-year $5,950 scholarship.
See page 30 or visit our website for more information on E12 entry.
- sydney.edu.au/e12

Other Scholarships
Our extensive range of scholarships also includes:
- equity scholarships
- scholarships for Aboriginal and Torres Strait Islander students
- global mobility scholarships
- Dalyell Scholars global mobility scholarships
- Elite Athlete Program scholarships
- accommodation scholarships
- faculty-based scholarships, and more.
More information, including eligibility and application requirements, is available at
- sydney.edu.au/scholarships

Student accommodation

Experience uni life at your doorstep

As a student with us, you’ll have a range of accommodation options to choose from, including:
- University residences
- residential colleges
- independently run student housing.

Our Accommodation Services website is a great place to get started. It’s full of helpful advice on where to live, expected costs, and all your accommodation options both on and off campus. It also allows you to register for University-owned housing.
- sydney.edu.au/accommodation

“The E12 scholarship allowed me to get a better footing during my studies. I’ve made so many great connections, which has been amazing for my personal growth and development.”
Skala Hamawandy
Bachelor of Science and Master of Nursing

“It’s truly the easiest way to meet people and feel supported and safe as you transition to uni life. I absolutely recommend spending your first year at university in on-campus accommodation! There are so many ways to get involved in and outside the halls — through events such as Intramural Arts and Sport, or Welcome Week activities like the harbour cruise.”
Ethan Christ
Bachelor of Science and Bachelor of Advanced Studies
University life

University is so much more than just what happens in the classroom – so make the most of it!

Expand your uni experience with our 250+ student-run clubs and societies, 30+ cafes, bars and food outlets, live performance spaces, museums and art galleries, 24-hour libraries, Olympic-size swimming pool, fully equipped gym and sports facilities, climbing wall and heritage-listed graffiti tunnel – to name just a few of the things that make up life at Sydney!

@sydney_uni   #USYDlife  sydney.edu.au/student-life

“I’ve formed lifelong friendships with the most kind-hearted and welcoming people. The enormous number of clubs and societies means you’ll definitely be able to find something that best suits your personal interests or hobbies!”

Olivia Le Khac
Bachelor of Science and Doctor of Dental Medicine

Student support services

When you join us at the University of Sydney, you’ll have plenty of help. Here are just a few of the ways we support your health, wellbeing and academic achievement.

Orientation and arrival
- Welcome to university
- Settling into Sydney
- Adjusting to student life
- Opportunities to meet fellow students and staff
- Information about available support services

Accommodation

“There can be a lot of pressure and expectations other people have for you when graduating high school. My advice would be to try and work out the things you love, the path you wish to take, and to focus on your personal achievements and goals.”

Kawana Crowe
Bachelor of Science and Bachelor of Advanced Studies (Advanced)
Uni terminology 101

Excited about going to uni but don’t know what to expect? We’ve got you covered. Here are some of the key terms you’ll find throughout this guide.

Bachelor’s degree
When you start university after high school, you’ll apply for a bachelor’s degree – such as a Bachelor of Arts or a Bachelor of Science – in your chosen subject area. A bachelor’s degree is an undergraduate degree (see next page), and takes at least three years to complete.

Credit points
Each unit of study (see next page) is worth a certain number of credit points. Each course requires the completion of a particular number of credit points made up of specified units of study.

Faculty
A faculty is a part of the University that offers a particular subject area for teaching and research, such as the Faculty of Engineering, or the Faculty of Arts and Social Sciences. Each faculty is further organised into more specific parts, such as schools, departments or disciplines.

Major
A major is a particular sequence of units of study (see next page) designed to develop your expertise in a particular field of study. For example, within your bachelor’s degree, you might choose to complete a major in criminology, marketing or microbiology. A major is usually made up of eight units of study.

Minor
Similar to a major, a minor is a particular sequence of units of study designed to develop your expertise in a particular field of study. A minor is usually made up of six units of study.

Part-time or full-time study
Each unit of study requires a certain number of contact hours, so you will be considered a part-time or a full-time student depending on how many units of study you take each semester. Not all courses are available part time.

Undergraduate and Postgraduate
An undergraduate degree, also known as a bachelor’s degree, is the first study you’ll undertake at uni. These courses don’t require previous university study to apply. A postgraduate degree usually requires previous completion of a relevant undergraduate degree or diploma. Types of postgraduate degrees include graduate certificate, graduate diploma, master’s degree or doctorate.

Unit of study
Each individual subject you take each semester is referred to as a ‘unit of study’, or just a ‘unit’. Each unit of study requires a certain number of contact hours, and has assessments and/or exams. A full glossary of terms is available on our website at:

- sydney.edu.au/courses
- sydney.edu.au/students/glossary

Prerequisites vs Assumed knowledge
Some of our courses have prerequisites. These are subjects that you need to have completed usually at high school to a specified standard, in order to be eligible for admission to that course. E.g. a mathematics prerequisite applies to many of our courses. You will not be able to receive an offer of admission if you have not met the course prerequisites. Additionally, there are prerequisites at subject (or unit of study) level that need to be met in order to enrol in a particular unit of study.

For some courses, we expect you to already have a certain level of knowledge in a particular subject area through your high school studies, in order to successfully study that subject at university level. Unlike a prerequisite, not having the required assumed knowledge will not prevent you from receiving an offer of admission if you meet all other admission criteria, but you might struggle with the course content if you do not already have the assumed knowledge. In some cases, by meeting the course prerequisite, you may also meet the assumed knowledge for the course.

Our course prerequisites and assumed knowledge are listed under the relevant course at:

- sydney.edu.au/courses

Advice on how to choose the right high school subjects for the university course you’d like to apply for are available at:

- sydney.edu.au/hsc-subject-selection

Detailed information about our mathematics prerequisites is available at:

- sydney.edu.au/study/maths
Important dates

January – February 2023
More UAC offers made
Welcome Week – get to know your fellow students and staff the week before classes begin
Semester 1 begins!

How to apply

FOR DOMESTIC STUDENTS*

1. CHOOSE YOUR COURSE
Are you aiming for a specific career? Or do you need more time to explore your options and get experience first? At the University of Sydney we offer a range of courses which give you the opportunity to pick one or two degrees that suit your unique career goals and passions.

Explore your options at:
- sydney.edu.au/courses

If you’d like more information, including advice on how to choose your course, then join us for an on-campus or online event. They’re listed here:
- sydney.edu.au/ug-events

2. CHECK ADMISSION CRITERIA FOR YOUR COURSE
Admission to the University of Sydney is competitive. For high school students, admission is usually based on your ATAR or equivalent in a recognised high school qualification such as the HSC. However, the University accepts a range of recognised qualifications for admission into undergraduate courses. For more details visit:
- sydney.edu.au/study/recognised-qualifications

It is also important to check if there is any additional admission criteria you’ll need to meet for courses you are interested in. For example, an interview, audition or portfolio. Some courses may have a mathematics prerequisite, and many of our education degrees have a prerequisite set by the NSW Education Standards Authority (NESA). You can find this information on the course tables on pages 39–71. Full details of the admission process is available at:
- sydney.edu.au/ug-entry

A range of courses in areas such as education, health, medicine and veterinary medicine, also have inherent requirements that you need to consider in making your course selection. Whilst they are not an admission requirement, you need to be able to meet these requirements to successfully complete your course. For more information, visit:
- sydney.edu.au/students/inherent-requirements

3. SUBMIT YOUR APPLICATION TO UAC
Applications are submitted online, along with any required supporting documentation, through the Universities Admissions Centre (UAC) website. For Sciences Po Dual Degrees, apply directly to the University. You can select up to 5 preferences per offer round, so if studying a degree with us is your dream, make sure to put us as your highest preference!

Don’t forget to also apply for entry schemes (pages 30–31), scholarships (page 18), and accommodation (page 19).
- uac.edu.au

4. ACCEPT YOUR OFFER
Offers are made through UAC. If you receive an offer, you’ll also get an email from the University of Sydney within 24 hours outlining the details of your offer and how to accept it.

Most offers to Year 12 students are made in December Round 2, with further offers made in January and February, subject to availability of places.

You can accept multiple offers before choosing which degree to enrol in, so remember to take advantage of later offer rounds.

*You are a domestic student if you are an Australian or New Zealand citizen (including dual citizens), or an Australian permanent resident, or permanent humanitarian visa holder.
Aboriginal and Torres Strait Islander students

Discover our range of programs dedicated to supporting Indigenous students to study at the University of Sydney.

Scholarships
We offer a wide range of scholarships. Search from hundreds of offerings for Indigenous students:
- sydney.edu.au/scholarships-search

Aboriginal and Torres Strait Islander Entry Scholarship
Valued at $10,000, this scholarship supports academically gifted Australian Indigenous students, who have obtained an ATAR in the HSC (or equivalent) of 85 or above.

Gadigal Accommodation Scholarship
This scholarship subsidises rent during your first year at available University-owned student accommodation. It is open to school leavers who are commencing full-time undergraduate study. Places are limited and priority is given to regional and remote students.

Gadigal Program
We look at more than your ATAR. Through our Gadigal Program admissions pathway, you will have access to:
- lower minimum ATAR requirements
- the opportunity to apply for a Gadigal Early Conditional Offer
- participation in an intensive two-week Academic Skills Program
- gadigal.sydney.edu.au

Extended Bachelor’s Programs
A dedicated pathway for Aboriginal and Torres Strait Islander students with built-in cultural support.

These extended degrees include an additional foundation year, with culturally relevant literacy and mathematics studies. These studies will equip you with excellent communication, critical and analytical skills, that will prepare you for university studies and beyond.

The available courses are:
- Bachelor of Arts (Extended)
- Bachelor of Liberal Arts and Science (Extended)
- Bachelor of Science (Extended)
- Bachelor of Science (Health) (Extended).

These courses are open to eligible students who can demonstrate potential for tertiary study to a standard sufficient to undertake the course, as defined in the course admission criteria.

The Gadigal Centre
Our dedicated student centre that supports Aboriginal and Torres Strait Islander students.

We are deeply committed to supporting our Aboriginal and Torres Strait Islander students with their academic, cultural, economic, and social and emotional needs to ensure that your student experience is positive and impactful.

The Gadigal Centre aspires to provide a culturally safe space which embodies high professionalism, integrity and understanding and seeks to uphold these values in all aspects of its service delivery to the University of Sydney’s Aboriginal and Torres Strait Islander students and their development.

We want to empower you throughout your studies and careers. Think of us as your family at the University – we will work with you to make sure that your journey here is as fun and successful as possible.

Our aim is to help you achieve your full potential and graduate from the University, job-ready.

Through the Gadigal Centre you’ll have access to:
- Mentoring Our Brothers and Sisters (MOBS) Program delivered by senior Indigenous students
- Free tutoring and group sessions through our Indigenous Tutorial Assistance Scheme
- Culturally safe spaces for Indigenous students
- You’ll also have access to the broader range of student support services such as careers support, disability services, financial support and academic support and enrichment programs.
- sydney.edu.au/indigenous-support

Accommodation
Living on campus is a great way to meet people, build friendships and develop networks that will stay with you for life. You’ll join a supportive community and be immersed in the full university experience from day one.

There are plenty of accommodation options to choose from, including:
- University-owned (independent living, self-catered)
- University colleges (fully inclusive of meals and programs)
- Off-campus accommodation.

“I take pride in the fact that I am studying at the University of Sydney. The team was in contact with me through the entire enrolment process and I’ve met many supportive friends through the Gadigal program.”

Thomas Harrington
Gadigal Program participant
Bachelor of Science and Doctor of Medicine
**Adjustment factors, entry schemes and other admission pathways**

We also offer targeted entry schemes and other admission pathways that can help you reach your dream degree.

**ENTRY SCHEMES**

**Academic Excellence Scheme**
The Academic Excellence Scheme recognises high performance in advanced levels of English and mathematics by applying adjustment factors to boost your selection rank for eligible courses. If you are a domestic student completing an Australian Year 12 qualification or the IB, you may be eligible for an adjustment of up to 5 points added to your ATAR or equivalent IB score*, depending on the course you apply for and whether you have achieved a Band 5 or 6 (or equivalent) in high-level English or mathematics.

- [sydney.edu.au/study/aes](http://sydney.edu.au/study/aes)

**Early Offer Year 12 (E12) Scheme**
The E12 Scheme, offered via UAC’s Schools Recommendation Schemes (SRS), is for domestic high school students who have recently completed Year 12 in NSW and who have been assessed by UAC’s Educational Access Scheme as:
- attending a NSW rural or regional high school or,
- experiencing E12 eligible financial hardship or,
- residing in an area identified by the Australian Bureau of Statistics as being in the lowest 25 percent of socioeconomic disadvantage in Australia.

Successful E12 applicants have the opportunity to receive an early conditional offer to eligible courses with a lower minimum ATAR requirement, and a $5950 scholarship in their first year.

- [sydney.edu.au/e12](http://sydney.edu.au/e12)

**Broadway Scheme**
The Broadway Scheme is our Educational Access Scheme (EAS) for domestic high school students who have experienced significant educational disadvantage during Year 11 and/or Year 12. You may be eligible for up to 10 adjustment factors depending on the course you apply for, and the severity of your educational disadvantage.

- [sydney.edu.au/admission-pathways](http://sydney.edu.au/admission-pathways)

**Future Leaders Scheme**
The Future Leaders Scheme is for Year 12 school captains and dux students who have recently completed high school in Australia and who apply through UAC. The scheme offers admission to eligible courses with a lower ATAR requirement in recognition of leadership and academic achievements.

- [sydney.edu.au/study/future-leaders-scheme](http://sydney.edu.au/study/future-leaders-scheme)

**Elite Athletes and Performers Scheme**
The Elite Athletes and Performers Scheme recognises domestic students who are elite athletes or performers and whose training, rehearsal and/or competitive commitments have significantly affected their Year 12 studies. You may be eligible to receive adjustment factors to increase your selection rank when applying to eligible degrees at the University.

- [sydney.edu.au/study/admission-pathways](http://sydney.edu.au/study/admission-pathways)

**Creative Arts Special Admission Scheme**
The Creative Arts Special Admission Scheme allows domestic high school students who apply through UAC to be eligible for an early offer of admission prior to the release of ATARs (or equivalent). Eligible applicants are assessed on a combination of academic performance and audition/portfolio requirements.

- [sydney.edu.au/arts/creative-arts-portfolio](http://sydney.edu.au/arts/creative-arts-portfolio)
- [sydney.edu.au/music/casas](http://sydney.edu.au/music/casas)

**Portfolio Admissions Pathway**
The Portfolio Admissions Pathway is a potential entry pathway for students who wish to apply for an architecture or design course and who expect to receive an ATAR of up to five points lower than the required ATAR for their chosen course. In conjunction with the HSC and other formal assessment systems, it assists us in identifying students with the potential to excel in architecture or design computing.

- [sydney.edu.au/architecture/portfolio-entry](http://sydney.edu.au/architecture/portfolio-entry)

---

*ATAR Adjustment Factors are added to a student’s ATAR equivalent rank, and not their IB score.
OTHER ADMISSION PATHWAYS

Transferring
If you do not get into your preferred course, or if your interests have changed, you may be eligible to reapply for your preferred course after completing one year of full-time study in another bachelor’s degree. Transferring requirements vary between faculties, and you may need to achieve certain grades to be eligible.
− sydney.edu.au/study/transfer-course

Mature-age entry
Our Mature-age Entry Scheme is an entry pathway for eligible domestic applicants aged 21 years or older who do not hold high school results that meet entry requirements and who have not previously completed any study at a tertiary institution.
− sydney.edu.au/admission-pathways

Special Consideration for Admission Scheme
If you have already started some tertiary studies but have experienced disruptions to your secondary or tertiary studies due to circumstances beyond your control, you may need to achieve certain grades to be eligible.
− sydney.edu.au/admission-pathways

Graduate entry
Our graduate entry courses allow you to gain a professional qualification in a competitive area such as law, medicine, dentistry, physiotherapy or veterinary medicine, after completing an eligible undergraduate degree. Graduate entry options are available on our courses website.
− sydney.edu.au/courses

“There are many pathways available, and there is no one right way to achieve your goals! Follow your passion and put yourself out there. Don’t discount your skills and abilities – apply for the course you really want to study.”
Grace Faulder
Bachelor of Applied Science

Fees and costs
FOR DOMESTIC STUDENTS

Tuition fees
All domestic students who receive an offer to enrol in an undergraduate course at the University of Sydney are eligible for a Commonwealth-supported place. You are considered a domestic student if you are a citizen of Australia or New Zealand (including dual citizens), or hold an Australian permanent resident visa, or an Australian permanent humanitarian visa.

When you are offered a Commonwealth-supported place in one of our courses, your tuition fees will be subsidised by the Australian Government. You will pay the remainder, called a ‘Student Contribution Amount’. Student Contribution Amounts are confirmed each year, at the census date. Depending on your citizenship or residency status, you will be able to either pay up-front with a 10 percent discount, or take out a HECS–HELP loan from the Australian Government.

HECS–HELP loans
Australian citizens, Australian permanent humanitarian visa holders and New Zealand Special Category Visa holders who meet the long-term residency requirements can either pay their Student Contribution Amount up-front with a 10 percent discount or obtain a full or partial HECS–HELP loan.

If you obtain a HECS–HELP loan, you will have to start repaying it when your income exceeds a certain amount. More information, including eligibility requirements, is available at:
− studyassit.gov.au

Australian permanent resident visa holders (excluding Australian permanent humanitarian visa holders) and most New Zealand citizens are required to pay their Student Contribution Amount up-front, and are not eligible for the 10 percent discount or for a HECS–HELP loan.

Other costs
In addition to tuition fees, you should budget for:
− course materials, textbooks, tools, protective clothing and other equipment
− the Student Services and Amenities Fee (SSAF), which is an Australian Government initiative, designed to fund non-academic university services and support programs; it is payable each semester and indexed annually for the duration of your course. In 2022 the SSAF is $157.50 for full-time students and $118.12 for part-time students.
− living expenses such as rent, travel and food if living away from home

More information about our tuition fees and other costs is available at:
− sydney.edu.au/study/tuition-fees
− sydney.edu.au/additional-course-costs
− sydney.edu.au/study/living-costs
− sydney.edu.au/ssa-fee

Amounts are confirmed annually by the University, within limits set by the Australian Government each year. Check the tuition fees for your specific course at:
− sydney.edu.au/courses

Exact Student Contribution Amounts for your course will depend on your calendar year of study and the specific units of study in which you enrol. Costs can vary depending on the discipline of study, and study load of each unit. Not all units of study in a course are in the same student contribution band.

Study fees
Not all units of study in a course are in the same student contribution band.
“I decided on my degree by finding the overlap between what I love, what I’m good at and what the world needs.”

Daniel Kim
Bachelor of Commerce and
Bachelor of Advanced Studies

University study isn’t just about gaining credentials – it’s about investing your time to discover what you really love doing.

Start by thinking about which subjects interest you, as well as how you like to learn and what you want from your university experience.
### 2023 Admissions Guide

FOR DOMESTIC STUDENTS

We offer Guaranteed Entry for most courses and list a guaranteed selection rank — ATAR + adjustment factors. Guaranteed Entry to a course is subject to meeting all the admission criteria and the availability of places. Selection ranks listed with an asterisk (*) are indicative and not Guaranteed Entry ranks. These courses have additional admission criteria and/or limited places.

All published scores are correct at the time of printing, and are subject to change. The most up-to-date information on ATARs is available at:
- sydney.edu.au/courses

</table>
Design the future. When you study at Sydney, you’ll combine creative flair with finely tuned technical skills to shape the spaces, services and experiences – both physical and digital – in which we live, work and play.

Combining creativity and technology

By studying with us, you’ll develop big-picture thinking and work towards addressing global challenges. You’ll graduate ready for a career that’s creatively driven and technically challenging.

“I was encouraged to apply for an internship at Google and I’m now a user experience designer in the Android Google Maps team. We work with researchers and engineers to design new products and features. It’s heaps of fun.”

Sophie Gardner
UX Designer
Bachelor of Design Computing (Honours)**

**B Design Computing has been replaced by B Design (Interaction Design).
**Arts and Social Sciences**

We’ll teach you to think through problems effectively and find solutions. Study with us and you’ll develop the skills to rigorously assess assumptions, develop strategies and test ideas against evidence. In the classroom, on an industry placement or on overseas exchange, you’ll bring your intellectual curiosity to bear on some of the most complex issues of the 21st century.

**Real-world experience before graduation**

Take up an Industry and Community Project Unit during your course and test your problem-solving and professional skills. The University of Sydney is ranked #1 in Australia and #4 in the world for graduate employability*.

**Arts and social sciences courses**

### B Arts

#### B Arts/B Advanced Studies

- **Selection Rank:** 90 Guaranteed
- **Entry:** Feb/Jul
- **Duration (full time):** 4 years
- **Dalbey by invitation
- Assumed knowledge:** Depends on majors or units of study chosen.

#### Programs, majors and minors

In the B Arts, you will choose one major from the options below and a minor or second major from these options or from the shared pool. In the B Arts/B Advanced Studies, you will choose one major from the list below, and a second major from the shared pool or from the following: American Studies; Ancient Greek; Ancient History; Anthropology; Arabic; language and cultures; Archaeology; Art History; Asian Studies; Biblical Studies and Classical Hebrew; Chinese Studies; Criminology; Cultural Studies; Digital Culture; Diversity Studies; Econometrics; Economics; Economic Policy; Education Studies; English; Environmental; Agricultural and Resource Economics; European Studies; Film Studies; Financial Economics; French and Francophone Studies; Gender Studies; German Studies; Hebrew (Modern); History; Indigenous Studies; Indonesian Studies; International Comparative Literary Studies; International Relations; Italian Studies; Japanese Studies; Jewish Civilization; Thought and Culture; Korean Studies; Latin; Linguistics; Modern Greek Studies; Music; Philosophy; Political Economy; Politics; Sanskrit (minor only); Social Policy (minor only); Socio-legal Studies; Sociology; Spanish and Latin American Studies; Studies in Religion; Theatre and Performance Studies; Visual Arts; Writing Studies (minor only).

In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

#### Assumed knowledge

Dalyell by invitation

#### Duration (full time): 4 years

#### Entry:

#### Selection Rank:

80 Guaranteed

### B Arts/B Advanced Studies (Dalbey Scholars)

- **Selection Rank:** 90 Guaranteed
- **Entry:** Feb/Jul
- **Duration (full time):** 4 years
- **Dalbey by application
- Assumed knowledge:** Depends on majors or units of study chosen.

#### Programs, majors and minors

Refer to B Arts/B Advanced Studies for degree requirements. As a Dalbey Scholar, you will undertake 12 credit points of distinct Dalbey units complemented by a suite of additional enrichment opportunities spanning mentorship, professional skill development, co-curricular activities, and the option for a global mobility experience. You’ll also complete units from the Open Learning Environment.

#### Assumed knowledge

Dalyell by invitation

#### Duration (full time): 4 years

#### Entry:

#### Selection Rank:

98 Guaranteed

### B Arts/B Advanced Studies (International and Global Studies)

- **Selection Rank:** 90 Guaranteed
- **Entry:** Feb/Jul
- **Duration (full time):** 4 years
- **Dalbey by invitation
- Assumed knowledge:** Refer to B Arts/B Advanced Studies

#### Programs, majors and minors

This stream requires completion of a program in international and global studies which includes a major in Global Studies, a minor in a language from the School of Languages and Cultures, and a minimum of 12 credit points of study abroad/exchange. A second major, which may be an extension of the language minor, must be taken from those available in the B Arts or from the shared pool. You will also have access to the Open Learning Environment. In the final year of the combined degree, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

#### Assumed knowledge

Dalyell by application

#### Duration (full time): 4 years

#### Entry:

#### Selection Rank:

### B Arts/B Advanced Studies (Languages)

- **Selection Rank:** 90 Guaranteed
- **Entry:** Feb/Jul
- **Duration (full time):** 4 years
- **Dalbey by invitation
- Assumed knowledge:** Refer to B Arts/B Advanced Studies

#### Programs, majors and minors

This stream requires completion of a program in Languages. You will complete two language majors as well as translation-focused units, and have the opportunity to complete electives from the shared pool. You’ll also have access to the Open Learning Environment. In the final year of the combined degree, you will undertake an honours option, or complete advanced coursework units in languages, multilingual projects and translation in up to three languages.

#### Assumed knowledge

Dalyell by invitation

#### Duration (full time): 4 years

#### Entry:

#### Selection Rank:

### Career possibilities

- Anthropologist, archaeologist, artist
- Business manager, designer, policy
- Curator, artist, intellectual

### Assumed knowledge

- Dalyell Scholars
- Mathematics prerequisite

**“Studying philosophy gave me the tools and mindset to build and manage a business effectively. I don’t think I’d have the competence or wisdom to do what I’m doing now without my learning experience at the University of Sydney.”**

Adam Jacobs
Co-founder and Managing Director, THE ICONIC
Bachelor of Arts and Bachelor of Commerce
Arts and social sciences courses

B Arts/B Advanced Studies (Media and Communications)

Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Assumed knowledge: Refer to B Arts/B Advanced Studies

Programs, majors and minors
This stream requires completion of a program in Media and Communications, including a major in Media Studies. A second major must be taken from those available in the B Arts or from the shared pool. You’ll also have access to the Open Learning Environment. In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Corporations, communications officer, information officer, journalist, print, online, radio, television, market or media researcher, producer, public relations officer, public policy officer.

B Arts/B Advanced Studies (Politics and International Relations)

Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by invitation
Assumed knowledge: Refer to B Arts/B Advanced Studies

Programs, majors and minors
This stream requires completion of a program, including a major in Politics and International Relations. A second major must be taken from those available in the B Arts or from the shared pool. You’ll also have access to the Open Learning Environment. In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship research project, or an honours project.

Career possibilities
Current affairs journalist, government and public service administrator, non-government or private sector administrator, policy researcher and consultant, political adviser, think-tank participant. This degree will equip you to pursue a wide range of careers where knowledge of the interactions between international and domestic politics is necessary.

B Arts (Dual Degree, Sciences Po, France)**

Selection Rank: 80* + other admission criteria
Entry: Jul (in France)
Duration (full time): 2 + 2 years
Assumed knowledge: Refer to B Arts

Programs, majors and minors
Diploma of Social Sciences

This dual degree enables you to work towards both a B Arts degree at Sciences Po in Paris for the first two years, and a B Arts degree at the University of Sydney for the remaining two years. As part of your B Arts at the University of Sydney, you’ll have access to the shared pool and the Open Learning Environment. Refer to B Arts for University of Sydney-based majors. For information on studies in France, including units of study, please refer to the Sciences Po website: www.sciencespo.fr/en/home

Career possibilities
Anthropologist, archaeologist, business administrator or manager, economist, editor or publisher, foreign affairs and trade officer, government policy officer, historian, language specialist, journalist, museum or gallery curator, public relations manager, researcher, sociologist.

Additional admission criteria
Bachelor of Arts and Bachelor of Economics

Career opportunities depend on the area of study undertaken. A diploma can be used as a pathway to honours or postgraduate studies.

Diploma of Arts

Selection Rank: na
Entry: Feb/Jul
Duration (full time): 1 year
Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors
You will complete a major, a minor or a collection of units of study from the following subject areas: Anthropology, Criminology, Economic Policy, International Relations, Politics/Political Science, Social Policy.

Career possibilities
Career opportunities depend on the area of study undertaken. Diplomas can be used as a pathway to honours or postgraduate studies.

Diploma of Language Studies

Selection Rank: na
Entry: Feb/Jul
Duration (full time): 1 year
Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors
You will complete a major, a minor or a collection of units of study from the following language subject areas: Ancient Greek, Arabic Language and Cultures, Biblical Studies and Classical Civilizations, Chinese, French and Francophone Studies, Germanic Studies, Hebrew (Modern), Indonesian Studies, Italian Studies, Japanese Studies, Korean Studies, Latin, Modern Greek Studies, Sanskrit (minor only), Spanish and Latin American Studies.

Career possibilities
Career opportunities include public relations, public policy, foreign affairs and trade, research, translation, interpreting. This degree will add global capability to other areas of study undertaken and will prepare you for careers with an international focus. A diploma can be used as a pathway to honours or postgraduate studies.

Diploma of Social Sciences

Selection Rank: na
Entry: Feb/Jul
Duration (full time): 1 year
Assumed knowledge: Depends on majors or units of study chosen.

Programs, majors and minors
You will complete a major, a minor or a collection of units of study from the following subject areas: Anthropology, Criminology, Economic Policy, International Relations, Politics/Political Science, Sociology, Social Policy (minor only).

Career possibilities
Career opportunities depend on the area of study undertaken. A diploma can be used as a pathway to honours or postgraduate studies.

B Visual Arts ♦ B Visual Arts/B Advanced Studies

Selection Rank: 70* + portfolio
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 years (combined)

Programs, majors and minors
You will study across many areas in contemporary art, including ceramics, glass, jewellery, painting, photography, print media, screen arts and sculpture. In the combined degree, you will also take a major from a range of majors offered across the University, and complete advanced coursework units, including a substantial research, community, industry or entrepreneurship project, or an honours project in the final year.

Career possibilities
Artist, artist/writer, craftsperson, curator, digital artist, art educator (artistic and further tertiary qualifications), exhibition designer, filmmaker, illustrator, painter, product designer, sound artist, web and multimedia designer.

Additional admission criteria
You will be assessed based on a portfolio of artwork. You are required to submit the portfolio by the relevant deadlines. When submitting the portfolio online, you will need to include a short statement describing one of the more developed projects in your portfolio.

Creative Arts Special Admission Scheme (CASAS)

Domestic applicants undertaking a current recognised high school (Year 12) qualification and applying via UAC may be eligible for an early offer of admission prior to the release of ATARs or equivalent scores under the University’s Creative Arts Special Admission Scheme. Eligible applicants will be assessed based on a combination of academic performance and portfolio requirements. For details visit: sydney.edu.au/arts/creative-arts-portfolio

** Science Po and University of Sydney dual degrees

Admission to the Sciences Po Dual Degree is highly competitive. Applicants are not automatically selected to meet the minimum admission requirements for their degree of choice at the University of Sydney, including English language requirements. The higher of the English language requirements of the two partner institutions will apply. The Sciences Po degree requires a total of four years of full-time study to be eligible for two separate awards from Sciences Po and the University of Sydney. During years 1-2, students enrol at Sciences Po, France, and pay the applicable fee direct to Sciences Po. During years 3-4, students enrol in the applicable Sydney degree (international students) and pay the applicable fee direct to the University of Sydney. Students pay the applicable Sydney fee in years 3-4 to the University of Sydney. Student visa holders who commence this course may face additional costs associated with their student visa. For visa information, visit www.homeaffairs.gov.au

At the University of Sydney Business School, you’ll acquire the skills to succeed as a business professional or build your own start-up. Graduate with the leadership abilities to drive positive change that has social, environmental and commercial impact.

Your global business journey starts here

Our Bachelor of Commerce and combined degrees will prepare you for career success in a dynamic and disruptive global economy. You’ll be equipped with advanced disciplinary knowledge as well as critical thinking, communication and leadership skills. You’ll have opportunities to study around the world and gain real-world experience with leading organisations. With a broad range of majors and a dedicated careers office for business students, you will be empowered to carve your own path to success.

“The Business School has helped me accelerate my career through networking opportunities with leading industry figures. I’ve developed great relationships within the University community through which I’ve gained mentoring, work placements and employability skills.”

Paris Vergan
Assistant International Trade Advisor, Business France
Bachelor of Commerce and Bachelor of Advanced Studies

Business courses

B Commerce
Selection Rank: 96 Guaranteed
Entry: Feb/Jul
Duration (full time): 3 years (single)/4 years (combined)
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors
You will choose one major from the options below and a second major (mandatory for B Commerce/B Advanced Studies) or a minor either from the shared pool or from these options: Accounting; Banking (major only); Business Analytics; Business Information Systems; Business Law; Finance (major only); Industrial Relations and Human Resource Management; Innovation and Entrepreneurship; International Business; Management and Leadership; Marketing; Professional Accounting (program). In the final year of the combined degree you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship or research project, or an honours project.

Career possibilities
Accountant, business analyst, entrepreneur, enterprise architect, financial dealer and broker, human resources specialist, international business consultant, investment banker, management consultant, marketing executive, policy adviser, project manager.

Combine B Commerce with B Advanced Computing, B Engineering Honours, B Laws.

B Commerce/B Advanced Studies
Selection Rank: 98 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Dalyell by application
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Advanced or higher

Programs, majors and minors
Refer to B Commerce/B Advanced Studies. As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enrichment opportunities, including mentoring, professional skill development, co-curricular activities, and the option for a global mobility experience. You’ll also complete units from the Open Learning Environment.

Career possibilities
Accountant, business analyst, entrepreneur, enterprise architect, financial dealer and broker, human resources specialist, international business consultant, investment banker, management consultant, marketing executive, policy adviser, project manager.

Economics

Economics is a fascinating and diverse discipline. The field addresses a range of issues that we face in modern life, playing a central role in shaping our society at every level.

Join the ranks of Australia’s most employable
Economics is crucial to understanding and solving the major problems and unique challenges the world faces today. Our courses will equip you with the skills, knowledge, flexibility and industry expertise to address these issues, make real-world impact and succeed in your career wherever it takes you. You’ll graduate with a global and highly sought-after qualification.

“The Bachelor of Economics taught me the fundamental principles of economics, as well as how to critique them. This helped me to interpret anything from financial news to human behaviour. My education saw me move from a part-time call centre job to head of commercial property research at the same company. The interdisciplinary approach and analytical thinking encouraged within the degree make it applicable to a wide range of industries.”

Eliza Owen
Commercial Property Research Analyst, CoreLogic
Bachelor of Economics (Honours)

Education and Social Work

Do what you love and make a world of difference through teaching or social work. At Sydney, you’ll be challenged to explore complex ideas and issues in your chosen field and graduate an informed, effective practitioner.

Become a confident practitioner

With strong connections in both the education and social work sectors, our advanced placement program encourages meaningful practical experiences. Throughout your course, you’ll apply your theoretical knowledge in real-world settings and develop the professional skills to graduate with confidence.

25th in the world for education*

Our teacher education degrees are accredited by the NSW Education Standards Authority (NESA)

Our social work degrees are accredited by the Australian Association of Social Workers (AASW)

* QS World University Rankings 2021 by subject

“As a student, I loved being part of a community that dedicated itself to considering the big issues that our society and culture face. Since then, I’ve always sought to be the kind of teacher who cares about students first and subjects second.”

Eddie Woo
Leader of Mathematics Growth, NSW Department of Education; Founder of Wootube

**B Education (Secondary: Mathematics) has been replaced by Bachelor of Education (Secondary)***

**B Education (Early Childhood)**

Selection Rank: 77 Guaranteed
Entry: Feb
Duration (Full time): 4 years
Prerequisites: Assumed knowledge: Standard (or equivalent) or higher in three HSC subjects, one of which needs to be English (Standard or Advanced or ESL/EALD); and Band 4 in Mathematics (Standard or Advanced). 

Programs, majors and minors
You'll study specialist units in early childhood education, development, and professional practice, complemented by generalist units in an Education Studies major, offered by the Faculty of Arts and Social Sciences.

Career possibilities
Teacher in primary schools or careers in training and human resource settings, community health, coaching, recreation and sport.

Professional recognition
NSW Education Standards Authority (NESA).

**B Education (Primary)**

Selection Rank: 85 Guaranteed + statement
Entry: Feb
Duration (Full time): 4 years
Prerequisites: Assumed knowledge: Mathematics Standard or higher

Programs, majors and minors
You'll take core units of study in education and professional studies along with discipline study in Health and Physical Education. You'll also need to select a second teaching area from: Aboriginal studies, biology, chemistry, drama, English, history (ancient and modern), languages and mathematics.

Career possibilities
Teacher in secondary schools or careers in training and human resource settings, community health, coaching, recreation and sport.

Professional recognition
NSW Education Standards Authority (NESA).

**B Education (Health and Physical Education)**

Selection Rank: 60 Guaranteed + statement
Entry: Feb
Duration (Full time): 4 years
Prerequisites: Assumed knowledge: Standard (or equivalent) or higher in three HSC subjects (or equivalent) one of which must be English (Standard or Advanced or ESL/EALD); and Band 4 in Mathematics Standard (or equivalent) or higher

Programs, majors and minors
You'll take core units of study in education and professional studies along with discipline study in Health and Physical Education. You'll also need to select a second teaching area from: Aboriginal studies, biology, chemistry, drama, English, history (ancient and modern), languages and mathematics.

Career possibilities
Teacher in secondary schools or careers in training and human resource settings, community health, coaching, recreation and sport.

Professional recognition
NSW Education Standards Authority (NESA).

Programs, majors and minors
Through this degree you'll take generalist units of study in education and professional studies, along with an interdisciplinary unit offered by the Faculty of Arts and Social Sciences. The program provides an ATiTSL recognised Primary Teaching Specialisation in English and the option for advanced students to complete a Primary Teaching Specialisation in Mathematics, Science and Technology, or Primary Languages. This degree covers all the key learning areas (primary subject areas), with special attention to the mandatory areas of Aboriginal education, teaching English to speakers of other languages (TESOL) and special education. Professional experience placements (totalling 80 days) begin in the second year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision.

Professional recognition
NSW Education Standards Authority (NESA).
**Education and social work courses**

### B Education/Secondary^*‡

**Selection Rank:** 80 Guaranteed + statement of intent
**Entry:** Feb
**Duration Full Time:** 4 years (single)/5 years (combined)
**Assumed knowledge:** Depends on majors or options of study chosen.

**Programs, majors and minors:**

In this new, revitalised degree, you’ll take core units of study in education, along with intensive study and professional experience in two teaching areas and units from the Open Learning Environment. Your two teaching areas can be selected from either Arts or Science, in areas including Aboriginal Studies, Biology, Business Studies, Chemistry, Drama, Economics, English, Geography, History, Judicary Studies, Languages, Mathematics, Physics, and Teaching English to Speakers of Other Languages (TESOL). You will need to complete at least a minor in your first teaching area. Professional experience placements totalling 80 days begin in the third year of the course and progressively increase until the final placement, when you will be competent to teach under minimal supervision. The Australian Association of Social Workers,

---

### B Social Work

**Selection Rank:** 80 Guaranteed
**Entry:** Feb
**Duration Full Time:** 5 years
**Assumed knowledge:** Refer to B Arts and B Social Work.

**Dalyell by invitation**

**Programs, majors and minors:**

The Social Work program includes studies in mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence, disability, disasters and climate change, impacts of poverty. First Nations studies and social research. You will learn to work alongside diverse groups and communities in Australia and overseas addressing critical social issues.

**Career possibilities:**

Aged care worker, children and families support worker, community worker in programs for people with disabilities, migrant and refugee liaison officer, international development worker, social policy adviser.

**Professional recognition:**

Australian Association of Social Workers.

---

### B Arts/B Social Work

**Selection Rank:** 80 Guaranteed
**Entry:** Feb
**Duration Full Time:** 4 years
**Assumed knowledge:** Refer to B Arts and B Social Work.

**Dalyell by invitation**

**Programs, majors and minors:**

You will choose a major from the B Arts, and a second major or a minor either from those options or from the shared pool. You must complete a major in Sociology, or a minor in either Sociology or Social Policy. You will also complete the Social Work professional program alongside your BA for four years. Social work includes mental health, social justice practice, work with children and families, social policy, human service systems, domestic violence and research.

**Career possibilities:**

Social worker in health, community services, ageing, disability, mental health, community development, social policy, disasters and climate change, leadership and work with non-government organisations in Australia and overseas. Career opportunities also available related to the major chosen from the B Arts degree. See B Arts for more career possibilities.

**Professional recognition:**

Australian Association of Social Workers.

---

### Additional admission criteria

**NESA prerequisites for teaching degrees:**

- The New South Wales Education Standards Authority (NESA) requires students entering the following teaching degrees to achieve a minimum of three Band 5s in their NSW HSC, one of which needs to be English (Standard or Advanced or English as a Second Language (ESL) or English as an Additional Language or Dialect (EALD) or equivalent).
- Bachelor of Education (Health and Physical Education)
- Bachelor of Education (Primary)
- Bachelor of Education (Secondary)

**Bachelor of Education/ Bachelor of Advanced Studies (Secondary)**

Additionally, the Bachelor of Education (Primary) requires students to achieve Band 4 in Mathematics Standard (or equivalent) or higher.

**Bachelor of Music (Music Education)**

For other non-Australian secondary education high school qualifications, the University will assess whether you have achieved an equivalent standard through your high school studies. If you need to meet English proficiency requirements through a test such as IELTS, you will complete those requirements separately.

Choose from our broad range of engineering, project management, and advanced computing degrees and you will have the opportunity to make a positive and lasting impact on society. Our students graduate job-ready and study a digitally focused curriculum designed for the jobs of the future.

"The best part of my placement at Cochlear was knowing that my work contributed to providing the gift of hearing to people who receive these life-changing devices.”

Bethany O’Neill
Engineering Sydney Industry Placement Scholarship (ESIPS) recipient
Bachelor of Engineering Honours and Bachelor of Science (Medical Science)

$200m
We’ve invested over $200m into our new engineering and technology precinct to support leading research and student learning

20+
Our new engineering digital curriculum allows you to select from more than 20 specialisations

1200+
We have access to more than 1200 industry, not-for-profit and government partners, so you gain real-world work experience before you graduate

We produce job-ready graduates
You’ll gain real-world work experience and have the opportunity to forge connections with our network of more than 1200 industry, not-for-profit and government organisations across engineering, computing and project management. The variety of specialisations, majors and cross-disciplinary units available ensure you’re able to pursue your passion and interests and stand out in the job market.

B Advanced Computing
Selection Rank: 90 Guaranteed
Entry: Feb./Jul
Duration (Full time): 4 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1

Majors
You’ll choose one computing major from the list below, with the option of also choosing either a second major or a minor from this list or from the shared pool: Computer Science, Computational Data Science, Cybersecurity, Software Development. You’ll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities
Computer programmer, computer system administrator, consultant, entrepreneur, information services manager, systems analyst, software engineer, user experience designer, web developer and manager.

Professional recognition
This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Commerce
Selection Rank: 96 Guaranteed
Entry: Feb./Jul
Duration (Full time): 5 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1.

For B Commerce: depends on majors or units of study chosen.

Majors
Refer to B Advanced Computing and B Commerce. You’ll choose one major from each degree. You’ll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities
Accountant, business systems analyst, computer programmer, computer system administrator, economist, financial specialist, mathematician, microbiologist, software engineer, systems analyst, web developer and manager.

Professional recognition
This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science
Selection Rank: 90 Guaranteed
Entry: Feb./Jul
Duration (Full time): 5 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1.

For B Science: depends on majors or units of study chosen.

Majors
Refer to B Advanced Computing and B Science. You’ll choose one major from each degree. You’ll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities
Computer programmer, consultant, geophysicist, information services manager, software engineer, systems analyst, web developer and manager.

Professional recognition
This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science (Health)
Selection Rank: 90 Guaranteed
Entry: Feb./Jul
Duration (Full time): 5 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1.

Also see B Science (Health)

Programs and majors
Refer to B Advanced Computing and B Science (Health). You’ll complete a major from the options available in the B Advanced Computing and the Health major. You’ll also have access to the Open Learning Environment to broaden your skills and explore other areas of study.

Career possibilities
Roles in computer programming, consultancy, corporate health, disability and ageing management and research.

Professional recognition
This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.

B Advanced Computing/B Science (Medical Science)
Selection Rank: 90 Guaranteed
Entry: Feb./Jul
Duration (Full time): 5 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1.

Chemistry or other Physics or Biology.

Majors
Refer to B Advanced Computing and B Science (Medical Science). You’ll choose one major from the options available in the B Advanced Computing, and complete the stream in Medical Science, which requires a program in Medical Science, including a Medical Science major.

Career possibilities
Computer programmer, consultant, doctor (after further study in medicinal, genetic, infectious diseases researcher, information services manager, microbiologist, pathologist, software engineer, systems analyst, web developer and manager.

Professional recognition
This degree is accredited by the Australian Computer Society. Our graduates are recognised internationally through the Seoul Accord.
B Engineering Honours (Aeronautical)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose a specialisation in Flight Dynamics, Engineering Aerodynamics, Aerospace Design or Aerospace Research. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: Design research and certification in the airline/aerospace industry, general engineering positions, and manufacturing and assembly research centres, and government institutions.

B Engineering Honours (Biomedical)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1, Physics and/or Chemistry
Specialisations: You may choose a Biomedical Engineering specialisation in Nanoscale Biotechnology, Biocomputation, Biosensors and Biotechnological, or Biomedical Modelling and Design. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: Biomedical engineers design and manufacture implantable and external medical devices. Careers include instrumentation engineer, device design engineer, medical device assessor, quality control and validation engineer, patient examiner, clinical support specialist, and field service engineer, for medical companies, hospitals, medical research centres, and government institutions.

B Engineering Honours (Chemical and Biomedical)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Chemistry
Specialisations: You may choose a Chemical and Biomedical Engineering specialisation in Food and Bioprocessing, Water and Environmental Treatment Processes, Process Intensification or Industry 4 D Chemical Engineering. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: All sectors of the process industries, from primary resource industries through to fine chemicals and sophisticated manufacturing.

B Engineering Honours (Civil)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physical
Career possibilities: Geotechnical engineers design foundations for buildings and bridges, and infrastructure projects. They may also be involved in the design and construction of roads and highways. Civil engineering graduates may work in a variety of industries, including construction, transportation, and environmental protection.

B Engineering Honours (Civil) – Dalyell Scholars
Selection Rank: 96 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 or either Physical Sciences or Chemistry, depending on the engineering stream (refer to the relevant stream).
Specialisations: As a Dalyell Scholar, you will undertake 12 credit points of distinctive Dalyell units complemented by a suite of additional enriched opportunities, including mentoring, professional development and the option for a global mobility experience.
Career possibilities: Along with career options from your chosen stream, the valuable insights gained through your studies as a Dalyell Scholar will set you apart from your peers and open up a range of opportunities across the public and private sectors, including: business, banking, consulting, entrepreneurship and project management.

B Engineering Honours (Electrical)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose an Electrical Engineering specialisation in Computer Engineering, Internet of Things, Intelligent Information Engineering, Power Engineering or Telecommunications Engineering. You may also broaden your studies by choosing a specialisation in Engineering Data Science, Innovation and Entrepreneurship or Humanitarian Engineering. Specialisations are optional.
Career possibilities: Grid maintenance and stability contractor, industry power supply engineer, power transmission and generation systems engineering, specialised consulting companies and telecommunications.

B Engineering Honours (Flexible First Year)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose an Engineering Data Science, Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: Refer to individual engineering streams for examples.

B Engineering Honours (Mechanical)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose a Mechanical Engineering specialisation in Energy and the Environment, Computational Engineering, Mechanical Design, Thermofluids, Materials Science and Engineering or Industrial and Product Design Engineering. You may also broaden your studies by choosing a specialisation in Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: Automated facilities, automatic control systems, biomedical implant design, building industry, design of automobile, underwater exploration and space vehicles, environmental pollution control, manufacturing industry, and mineral exploration.

B Engineering Honours (Mechatronic)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose a Mechatronic Engineering specialisation in Robotics and Intelligent Systems. You may also broaden your studies by choosing a specialisation in Innovation and Entrepreneurship, Humanitarian Engineering or Computer Systems. Specialisations are optional.
Career possibilities: Automatic control systems, product design and development, robotics and automation for advanced manufacturing, and software design and development for real-time computer systems.

B Engineering Honours (Software)
Selection Rank: 92 Guaranteed
Entry: Feb/Jul
Duration (full time): 4 years
Mathematics prerequisite: Yes
Assumed knowledge: Mathematics Extension 1 and Physics
Specialisations: You may choose a Software Engineering specialisation in Computer Systems, Engineering Data Science, Internet of Things or Intelligent Information Engineering.
Career possibilities: Artificial intelligence, control systems, database management, information technology, internet programming, language compilers, multimedia and distributed software systems, real-time software engineering and reliable biomedical systems.

### Professional recognition

This combined degree is accredited by Engineers Australia. Our graduates are recognised internationally through the Washington Accord of the International Engineering Alliance.
With more than 150 years of research-led education, we’re ranked 14th in the world for law. Together with another degree of your choosing, develop highly sought-after skills to become a leader in your chosen career and create change in a global environment.

Learn from the best legal minds

At Sydney Law School, you will learn from globally recognised legal educators and highly respected professional practitioners, gain an internationally relevant legal education with overseas opportunities, and be equipped with skills that will prepare you for the global marketplace.

Areas of study

In the world* for law, we are one of the world's leading law schools

Apply classroom knowledge to real-world cases with social justice and law reform activities

Strategic partnerships with world-leading universities provide global opportunities to study abroad

Law courses

B Arts/B Laws

Programs, majors and minors

Career possibilities

Refer to B Arts. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Commerce/B Laws

Programs, majors and minors

Career possibilities

Refer to B Commerce. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Economics/B Laws

Programs, majors and minorities

Career possibilities

Refer to B Economics. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Engineering Honours/B Laws

Programs, majors and minorities

In addition to the relevant B Engineering stream requirements, you will undertake law units of study. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts, Second year: Civil and Criminal Procedure, Contracts, Criminal Law; Third year: Torts and Contracts II; Public International Law, Public Law, Legal Research II; Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

Career possibilities

Refer to the relevant B Engineering Honours stream. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

B Science/B Laws

Programs, majors and minorities

Refer to B Science. Please note that the only stream available in this combined degree is the Dalyell stream. Units of study for B Laws: First year: Foundations of Law, Legal Research, Torts, Second year: Civil and Criminal Procedure, Contracts, Criminal Law; Third year: Torts and Contracts II; Public International Law, Public Law, Legal Research II; Fourth year: Administrative Law, Corporations Law, Equity, Evidence, Federal Constitutional Law, Introduction to Property and Commercial Law, Real Property and the Legal Profession. Fifth year: Private International Law A and seven elective units of study.

Career possibilities

Refer to B Science and options below for science-specific careers: environmental lawyer, urban and regional planner, occupational health and safety specialist, forensic science technician, science policy specialist, technical specialist or associate undertaking intellectual property cases in science patents, copyright and trademark disputes. For B Laws: solicitor, barrister, magistrate, judge, diplomacy, foreign affairs, human rights, international relations, investment banking, journalism, management consultancy, public policy.

* QS World Rankings by Subject 2021

With overseas opportunities, and be equipped with skills that practitioners, gain an internationally relevant legal education

At Sydney Law School, you will learn from globally recognised legal minds

"The University of Sydney has an outstanding reputation for law and an engaged student body with a huge range of clubs and societies. The flexible degree structure with the Bachelor of Arts also opened up a lot of opportunities." Mitchell Cleaver Bachelor of Arts and Bachelor of Laws

Medicine and Health

There has never been a better time to study medicine and health. With healthcare professionals in high demand across the world, we are empowering future leaders in the field. Choose from the largest range of health degrees of any Australian university and graduate ready to enter the health workforce.

Our degrees will kickstart your career in health

Health care is one of the fastest growing industries around the world. At Sydney, you’ll learn with academic experts and students in many health disciplines to develop a range of invaluable skills, from patient interaction to teamwork, leadership and research.

“Our Applied for diagnostic radiography after working in an emergency department and seeing the amazing work that can be done with medical imaging. My highlight so far was the clinical placement in Darwin and working with Indigenous communities.”

Tom Readford
Bachelor of Applied Science (Diagnostic Radiography)

Gain hands-on experience in our network of clinical placements across 8 major health districts

You will learn in our new state-of-the-art Susan Wakil Health Building

medical and nursing*

top 20

programs, majors and minors

You will cover studies in anatomy, biological sciences, equipment and imaging techniques, image processing, pathology, physics, psychology and radiation biology.

Career possibilities

Diagnostic radiographer, with the opportunity to work in a range of settings, such as small regional clinics, large metropolitan imaging departments, and hospital emergency departments.

Professional recognition

Medical Radiation Practice Board of Australia.

B Applied Science (Diagnostic Radiography)

Selection Rank: 96*

Entry: Feb

Duration: 4 years

Programs, majors and minors

You will cover studies in anatomy, biological sciences, equipment and imaging techniques, image processing, pathology, physics, psychology and radiation biology.

Career possibilities

Diagnostic radiographer, with the opportunity to work in a range of settings, such as small regional clinics, large metropolitan imaging departments, and hospital emergency departments.

Professional recognition

Medical Radiation Practice Board of Australia.

B Applied Science (Exercise and Sport Science)

Selection Rank: 92*

Entry: Feb

Duration: 4 years

Programs, majors and minors

You will cover studies in biomechanics, clinical exercise practice, ergonomics, exercise physiology, functional anatomy, motor control and behaviour.

Career possibilities

Exercise physiologist. As an accredited exercise physiologist, you will have the opportunity to work across all sectors of health care, including cardiac rehabilitation, musculoskeletal rehabilitation, mental health, long-term rehabilitation following spinal cord injury, aging, occupational rehabilitation and programs for people with an intellectual disability.

Professional recognition

Exercise and Sport Science Australia (ESSA).

B Applied Science (Exercise Physiology)

Selection Rank: 97*

Entry: Feb

Duration: 4 years

Programs, majors and minors

You will cover studies in biomechanics, clinical exercise practice, ergonomics, exercise physiology, functional anatomy, motor control and behaviour.

Career possibilities

Exercise physiologist. As an accredited exercise physiologist, you will have the opportunity to work across all sectors of health care, including cardiac rehabilitation, musculoskeletal rehabilitation, mental health, long-term rehabilitation following spinal cord injury, aging, occupational rehabilitation and programs for people with an intellectual disability.

Professional recognition

Exercise and Sport Science Australia (ESSA).

B Applied Science (Occupational Therapy)

Selection Rank: 93*

Entry: Feb

Duration: 4 years

Programs, majors and minors

You will complete a major or minor in Disability, Participation and Health and cover studies in Physical and Psychosocial capacity, as well as human anatomy, medical sciences, neuroscience, occupational therapy theory and practice, psychology and social sciences. You will also undertake a placement to gain valuable practical experience.

Career possibilities

Occupational therapist. The breadth of occupational therapy means you can diversify your career while staying within the same profession. For example, you could work one-on-one in rehabilitation with stroke or cancer survivors, then work with babies in a neonatal intensive care unit or young adults in a community mental health program.

Professional recognition

Occupational Therapy Board of Australia, Australian Health Practitioner Regulation Agency, Occupational Therapy Australia and the World Federation of Occupational Therapists.

B Applied Science (Physiotherapy)

Selection Rank: 99.5*

Entry: Feb

Duration: 4 years

Programs, majors and minors

You will cover studies in biomechanics, clinical exercise practice, ergonomics, exercise physiology, functional anatomy, motor control and behaviour.

Career possibilities

Physiotherapist. You can choose from a diverse range of physiotherapy and health promotion career options in both the public and private sectors, in settings such as healthcare organisations as well as sports, schools and community, and private practice.

Professional recognition

Australian Physiotherapy Council and Australian Health Practitioner Regulation Agency (APRA).

Professional recognition

Australian Physiotherapy Council and Australian Health Practitioner Regulation Agency (APRA).
**Medicine and health courses**

**B Applied Science (Speech Pathology)**

**Selection Rank:** 94

**Entry:** Feb

**Duration Full time:** 4 years

Programs, majors and minors: You will cover studies in anatomy, audiology, linguistics and language development, neurobiology, phonetics, psychology, research methods and speech comprehension areas (e.g., aphasia, cleft palate, dysarthria, dysphagia, stuttering). You will also undertake placement to gain valuable practical experience.

Career possibilities: Speech pathologists, with the opportunity to work in diverse settings, including public and private hospitals, community health, mental health services, aged care facilities, schools, and disability services. As a speech pathology graduate, you may also work in private practice, with the potential to operate your own business as a private practitioner.

Professional recognition: Speech Pathology Australia.

**B Arts/D Medicine**

**Selection Rank:** 99.95* + other admission criteria

**Entry:** Feb

**Duration Full time:** 7 years

Dalyell by invitation

Mathematics prerequisite: Yes

Assumed knowledge: Mathematics Advanced or higher; For B Arts: depends on majors or units of study chosen.

Programs, majors and minors: Refer to B Arts. You will choose a major from the options available in the B Arts, and either a second major or a minor from those options or the shared pool. During the B Arts, you will also complete foundational knowledge units for medicine (in science), a zero-credit-point subject in medicine, and Open Learning Environment units. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. You will also have access to a suite of additional enrichment opportunities. In the Doctor of Medicine component, practical experience – including contact with patients and observation of the physical aspects of disease – commences in the first year and continues to the final year.

Career possibilities: General practice, surgery or other specialties, research, pharmaceutical industry, forensic anthropologist, government policy officer, medical journalism, aid work, management consultancy, teaching, medical administration, medical communication.

Professional recognition: Australian Medical Council (AMC).

**B Arts/M Nursing**

**Selection Rank:** 80 Guaranteed

**Entry:** Feb

**Duration Full time:** 4 years

Assumed knowledge: For B Arts: Depends on units of study chosen; For Nursing: none

Programs, majors and minors: Refer to B Arts. You will choose a major from the B Arts and selectives from those available in the B Arts or the shared pool. You’ll also have access to the Open Learning Environment. Focus areas for nursing include: acute care, aged care, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, primary health care, professional practice, social and health policy.

Career possibilities: Registered nurse or a career in healthcare settings and highly applicable in a range of non-clinical settings that include government, non-government organisations, business, education and research.

Professional recognition: Nursing and Midwifery Board of Australia.

**B Nursing (Advanced Studies)**

**Selection Rank:** 84 Guaranteed

**Entry:** Feb

**Duration Full time:** 3 years

Programs, majors and minors: Focus areas for nursing: acute care, aged care, child and adolescent health, chronic illness, clinical practice, Indigenous health, mental health care and management, pharmacology, physiology, primary health care, professional practice, social and health policy.

Career possibilities: Focuses on a career in a range of healthcare settings, including emergency, intensive care, mental health, cancer and palliative care, aged care, child and adolescent health, international health, education and research.

Professional recognition: Nursing and Midwifery Board of Australia.

**B Oral Health**

**Selection Rank:** 83

**Entry:** Feb

**Duration Full time:** 3 years

Programs, majors and minors: Your studies will include dental hygiene and dental therapy service as well as oral health promotion.

Professional recognition: Australian Dental Council, Dental Board of Australia.

**B Pharmacy (Honours)/M Pharmacy Practice**

**Selection Rank:** 90 Guaranteed

**Entry:** Feb

**Duration Full time:** 5 years

Mathematics prerequisite: Yes

Assumed knowledge: Mathematics Advanced or higher, Biology and Chemistry

Programs, majors and minors: Completion of a major is not a requirement in this degree. Your studies will include biology, medicinal chemistry, pharmacological sciences, pharmaceutics, pharmacology and pharmacy practice. In the fourth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. The work integrated learning component of this course, in the fifth year (Master of Pharmacy Practice), has been developed to satisfy the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and includes the requirement to complete 1,824 hours (one year) of supervised practice training.

Career possibilities: Pharmacist. Registered pharmacists in community pharmacies (community practice), hospital pharmacy, research positions within universities or research institutes, or positions in the pharmaceutical industry in drug production, marketing or drug development.

Professional recognition: The degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.

**B Pharmacy and Management (Honours)/M Pharmacy Practice**

**Selection Rank:** 90 Guaranteed

**Entry:** Feb

**Duration Full time:** 5 years

Mathematics prerequisite: Yes

Assumed knowledge: Mathematics Advanced or higher, Biology and Chemistry

Programs, majors and minors: Completion of a major is not a requirement in this degree. Your studies will include biology, medicinal chemistry, pharmacological sciences, pharmaceutics, pharmacology and pharmacy practice. In the fifth year, you will undertake your honours research project, which could be based overseas in pharmacy-related settings or in the pharmaceutical industry. The work integrated learning component of this course, in the sixth year (Master of Pharmacy Practice), has been developed to satisfy the Australian Pharmacy Council pre-registration training requirements to become a registered pharmacist and includes the requirement to complete 1,824 hours (one year) of supervised practice training.

Career possibilities: Pharmacist. Registered pharmacists in community pharmacies (community practice), hospital pharmacy, research positions within universities or research institutes, or positions in the pharmaceutical industry in drug production, marketing or drug development.

Professional recognition: The degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.

**B Science/D Dental Medicine**

**Selection Rank:** 99.6* + other admission criteria

**Entry:** Feb

**Duration Full time:** 7 years

Dalyell by invitation

Mathematics prerequisite: Yes

Assumed knowledge: For B Science: Mathematics Advanced and/or higher (depending on units of study selected), other assumed knowledge depends on majors or units of study chosen.

For D Dental Medicine: None

Programs, majors and minors: During the B Science, you could choose a wide range of majors and minors from across the sciences. Refer to B Science. You will also complete foundational knowledge units for biology and a zero-credit-point unit of independent learning related to dentistry and oral health. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. For the Doctor of Dental Medicine, you will study integrated clinical dentistry and life sciences, and also conduct research projects related to dentistry and oral health.

Career possibilities: Pharmacist, Registered pharmacists in community pharmacies (community practice), hospital pharmacy, research positions within universities or research institutes, or positions in the pharmaceutical industry in drug production, marketing or drug development.

Professional recognition: The degree is accredited by the Australian Pharmacy Council and the supervised practice component is approved by the Pharmacy Board of Australia.

**B Science/O Dental Medicine**

**Selection Rank:** 99.95* + other admission criteria

**Entry:** Feb

**Duration Full time:** 7 years

Dalyell by invitation

Mathematics prerequisite: Yes

Assumed knowledge: For B Science: Mathematics Advanced and/or higher (depending on units of study selected), other assumed knowledge depends on majors or units of study chosen.

For D Dental Medicine: None

Programs, majors and minors: Refer to B Science. You may elect to complete the Medical Science stream or choose from a wide range of majors from across the sciences and either a second major or minor from science or the shared pool. During the B Science, you will also complete foundational knowledge units for medicine (in science) and Open Learning Environment units. If you become a Dalyell Scholar, you will complete 12 credit points of distinctive Dalyell units designed to cultivate high-level graduate attributes. You will also have access to a suite of additional enrichment opportunities. In the Doctor of Medicine component, practical experience – including contact with patients and observation of the physical aspects of disease – commences in the first year and continues to the final year.

Career possibilities: General practice, surgery or other specialties, research, pharmaceutical industry, forensic anthropologist, government policy officer, medical journalism, aid work, management consultancy, teaching, medical administration, medical communication.

Professional recognition: Australian Medical Council (AMC).
Medicine and health courses

B Science/M Nutrition and Dietetics
Selection Rank: 80 Guaranteed
Entry: Feb
Duration (full time): 4 years
Dalyell by invitation
Mathematics prerequisite: Yes
Assumed knowledge: For B Science: Mathematics Advanced and/or higher, other assumed knowledge depends on majors or units of study chosen; For M Nursing: None

Programs, majors and minors
For the B Science, you will need to complete a program in Nutrition and Dietetics, including a major in Nutrition Science, a minor or a second major and units of study from the Open Learning Environment. Candidates need to successfully complete the Bachelor of Science to proceed to the Master of Nutrition and Dietetics.

Career possibilities
Registered nurse in a range of healthcare settings, including e-health, mental health, industrial relations and management.

Professional recognition
Nursing and Midwifery Board of Australia.

The Sydney Conservatorium of Music has been at the forefront of Sydney’s musical and cultural life for more than 100 years. Explore a diverse range of programs to develop your unique musical voice, including classical performance, jazz, music composition for creative industries or the concert hall, digital music and media, contemporary music, Indigenous music, Asian music, music theatre, musicology and music education.

Make the music you want to hear

Sydney Conservatorium offers some of the best facilities for studying music in the Asia-Pacific region. You will have plenty of opportunities to perform or have your work recorded or performed. As part of your musical studies, you will have extensive opportunities to rehearse and perform with some of our ensembles lead by industry experts, including Symphony Orchestra, Wind Band, Choir, Jazz Big Band, Modern Music Ensemble and our Early Music Ensemble.

“The Con is one of the most prestigious music institutions in Australia, with a wide range of facilities. My advice to any prospective student is to simply go for it, work hard and support your peers whenever you possibly can. I believe the opportunities we gain from studying are what we make of them.”

Anna Da Silva Chen
Violinist

Programs, majors and minors

You will take an instrumental or vocal principal study from either classical music, jazz, historical performance, music theatre, non-Western Music or drum set. In addition, you will undertake advanced coursework and a substantial real-world industry, community, entrepreneurship project, or an honours project.

Career possibilities

Concert soloist, music teacher, orchestral musician, chamber musician, jazz musician, conductor, concert entrepreneur, arts manager.

Additional admission criteria

For the Bachelor of Music (Music Education), also see requirements under Education (see page 50).

For the Bachelor of Music (Performance), also see requirements under Creative Arts Special Admission Scheme (CASAS).

Domestic applicants undertaking a current recognised high school Year 12 qualification and applying via UAC, may be eligible for an early offer of admission prior to the release of ATARs or equivalent score under the University’s Creative Arts Special Admission Scheme. Eligible applicants will be assessed based on a combination of academic performance and audition/portfolio requirements.

Science courses

B Science/B Advanced Studies (Dalyell Scholars including Mathematical Sciences)

Selection Rank: 98 Guaranteed Entry: Feb/Jul Duration (full time): 4 years Dalyell by invitation Mathematics prerequisite:‡ Assumed knowledge: Mathematics Advanced and/or higher and Chemistry; other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors

Refer to B Science/B Advanced Studies (Medical Science) for important information.

Career possibilities

Agricultural scientist, astronomer, biosecurity researcher, data analyst, ecologist, environmental policymaker, food chemistry analyst, hydrologist, investment banker, journalist, mathematician, medical scientist, non-scientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist.

Conservation which includes a Wildlife Conservation major that combines biology and conservation management. You will complete a second major from the B Science or the shared pool. The Taronga Wildlife Conservation major also includes additional prescribed units of study in mathematics and science. It will provide extensive training in wildlife conservation by integrating knowledge of biodiversity and evolution, animal science and animal behaviour. You will also complete units from the Open Learning Environment. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project.

Career possibilities

Agricultural scientist, astronomer, biosecurity researcher, data analyst, ecologist, environmental policymaker, food chemistry analyst, hydrologist, investment banker, journalist, mathematician, medical scientist, non-scientist, nutritionist (after further study), psychologist (after further study), plant geneticist, soil scientist.

B Science/B Advanced Studies (Animal and Veterinary Bioscience)

Selection Rank: 98 Guaranteed Entry: Feb/Jul Duration (full time): 4 years Dalyell by invitation Mathematics prerequisite:‡ Assumed knowledge: Mathematics Advanced or higher and Chemistry; other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors

This stream requires completion of a program in Animal and Veterinary Bioscience, including an Animal and Veterinary Bioscience major. You will complete a second major from those available in the B Science or from the shared pool. You’ll also complete units from the Open Learning Environment. In the final year of the combined degree in addition to a professional placement, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project.

Career possibilities

Veterinarian, veterinary diagnostician, small animal veterinarian, veterinarian, veterinary health scientist, veterinary health technician, veterinary physician, veterinary surgeon.

B Science/B Advanced Studies (Food and Agribusiness)

Selection Rank: 98 Guaranteed Entry: Feb/Jul Duration (full time): 4 years Dalyell by invitation Mathematics prerequisite:‡ Assumed knowledge: Mathematics Advanced or higher and Chemistry; other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors

You are required to complete the Health major in this stream. You will complete a second major (Mandatory for B Science/B Advanced Studies (Health)) or minor from those available in the B Science, including Human Movement, or from the shared pool. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project.

Career possibilities

Health promotion, policymaking, healthcare administration, project and management, insurance, business development, marketing and public relations, research assistant, sports and conditioning consultant.

Combine B Science (Health) with B Advanced Computing/B EinerHons (Medical, M Nursing)

B Science/M Mathematical Sciences

Selection Rank: 98 Guaranteed Entry: Feb/Jul Duration (full time): 4 years Dalyell by invitation Mathematics prerequisite:‡ Assumed knowledge: Mathematics Advanced or higher and Chemistry; other assumed knowledge depends on majors or units of study chosen.

Programs, majors and minors

This stream requires completion of a program in Medical Science, including a Medical Science major. You will complete a second major (Mandatory for B Science/B Advanced Studies (Medical Science) or minor from those available in the B Science or from the shared pool). You’ll also complete units from the Open Learning Environment. In the final year of the combined degree, you will undertake advanced coursework units and a substantial real-world industry, community, entrepreneurship or research project.

Career possibilities

A medical researcher, pathologist, doctor (with further study), dentist (with further study), histologist, physiologist, microbiologist, occupational health and safety worker, device designer, anatomy researcher, infectious diseases researcher, epidemiologist, molecular biologist.

Combine B Science (Medical Science) with B Advanced Computing/B EinerHons (Biomedical, M Medicine)

B Veterinary Biology/D Veterinary Medicine

Selection Rank: 98* + statement and test Entry: Feb/Jul Duration (full time): 4 years Mathematics prerequisite:‡ Assumed knowledge: Mathematics Advanced or higher, Chemistry and Physics.

Programs, majors and minors

Your studies will include animal behaviour and welfare science, animal diseases and pathology, animal husbandry, cell biology, clinical and professional practice, physiology and public health. Veterinary conservation biology and veterinary medicine, veterinary public health and veterinary surgery.

Career possibilities

Veterinarian, veterinary diagnostician, small animal veterinarian, veterinarian, veterinary health technician, veterinary physician, veterinary surgeon.

Additional admission criteria

Applicants to the Bachelor of Veterinary Biology/D veterinar Medicine are required to submit a Curriculum Vitae, a statement and test to the College of Veterinary Medicine for admission. For details, visit the Bachelor of Veterinary Biology/D Veterinary Medicine course page.

For important information see page 72

* Selection ranks with an asterisk are indicative and not Guaranteed Entry.
Selection ranks and Guaranteed Entry
For all eligible courses, we list a selection rank (ATAR + adjustment factors) with Guaranteed Entry for admission in the specified year for most courses. Admission to all courses is subject to meeting the selection rank plus other essential admission criteria (e.g. prerequisites) and availability of places. Selection ranks marked with an asterisk (*) are indicative and not Guaranteed Entry as these courses have additional admission criteria and/or may have a limited number of places.

Adjustment factors are used to increase your selection rank based on factors such as your performance in HSC subjects, the location of your school, or your eligibility for Educational Access Schemes. Selection rank adjustments don’t change your ATAR, they change your selection rank for a particular course at a particular institution. If you are not eligible for adjustment factors, your selection rank is your ATAR.

IB Diploma
IB diploma scores are currently unavailable at the time of printing. IB scores will be made available once the new assessment schedule is released. For the latest information, visit:
− sydney.edu.au/courses

Assumed knowledge and prerequisites
The assumed knowledge and prerequisites listed in our course tables refer to subjects in the NSW Higher School Certificate (HSC) curriculum. For example, Mathematics Advanced refers to the two unit HSC subject or an equivalent subject for other qualifications. Refer to the HSC syllabus to understand the required subjects and standards.

Recommended studies
Some courses may also have recommended studies. For details, check the relevant course at
− sydney.edu.au/courses

Key to the tables

Additional admission criteria
Combination of selection rank (or equivalent score) plus additional admission criteria (e.g. portfolio, audition, interview). Check the details for your specific course in the area of study section of this guide or at
− sydney.edu.au/courses

na
Not applicable as an admission score cannot be applied.

Mathematics course prerequisites
Mathematics prerequisites apply to domestic students applying for admission to relevant courses (see our website for a full list). Aboriginal and Torres Strait Islander applicants applying through the Gadigal Program who do not meet the prerequisites may be admitted if they submit sufficient proof of mathematics ability as assessed by the University.

Visit our website to find out more about the mathematics prerequisites, including equivalent requirements for other qualifications:
− sydney.edu.au/study/maths

*Education degrees with NESA prerequisites
NSW Education Standards Authority (NESA) has separate requirements for education degrees. See pages 49, 50 and 67 for details or visit the relevant course at:
− sydney.edu.au/courses
Your journey to leadership is as unique as you are.

Create your own path, starting now. At the University of Sydney, you can customise your course and get involved in extracurricular activities to shape life at university and beyond.

Explore world-class knowledge, ideas and innovation to create a future with impact.

To learn more, come and see us at Open Day, call our helpline or visit our website.
