

Development Agriculture

1. Introduction (David Guest)
2. Coffee value chains (Mark Vicol)
3. Food and nutrition (Julia de Bruyn)
4. Integration into teaching (Damien Field)
5. Discussion

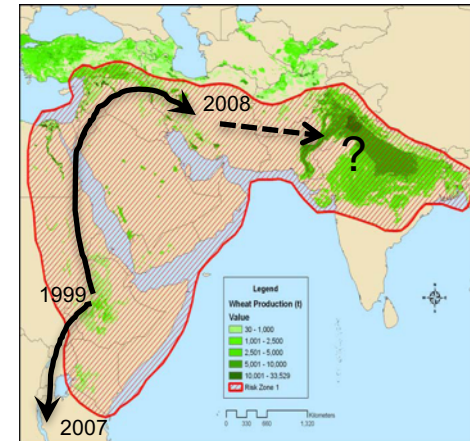

Why development agriculture?

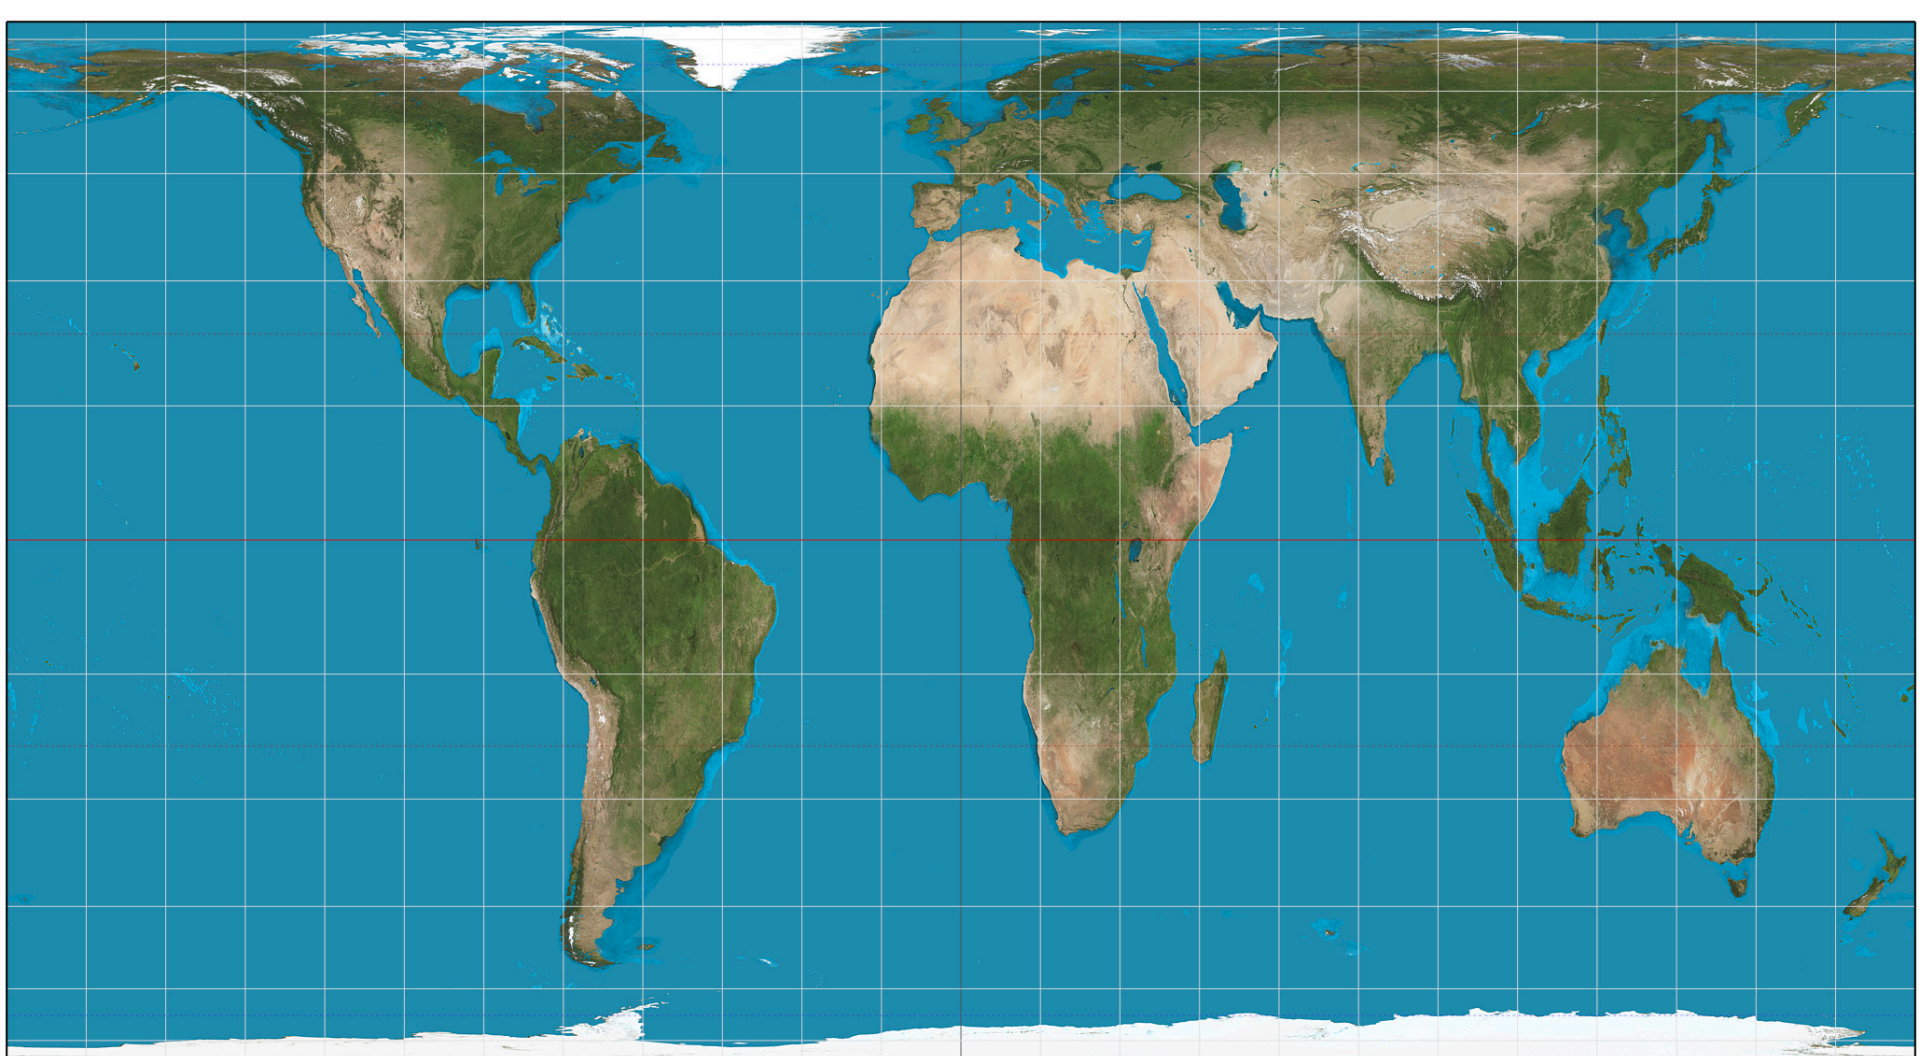

- Pestilence and famine
- The Green Revolution
- The double burden of malnutrition
 - Nutrition sensitive agriculture
 - Planetary health
- Agriculture and economic development
- Trade and food safety
- New technologies

THE FAMINE IN IRELAND.—FUNERAL AT SKIBBEREEN.—FROM A SKETCH BY MR. H. SMITH, CORK.

Ug99 stem rust of wheat

Cocoa and chocolate

- Smallholder farmers produce cocoa beans for chocolate
- Average income ~\$2/day
- Improved livelihoods requires interdisciplinary approach:
 - Intensification of production
 - Diversification of incomes
 - Improved farmer health and nutrition
 - Improved market access
