This form should be completed by applicants to study the Master of Pharmacy.

For further information about the application and selection process for the Master of Pharmacy, please refer to: sydney.edu.au/courses/master-of-pharmacy

Full name	
Student ID number	

Instructions on how to complete prerequisite studies information

- Please indicate which prerequisite requirements you believe that you have met. All prerequisite subjects must be at university level and have been completed in the last ten years. Please list all associated subjects you have completed (or are on track to complete) that you believe may be related to the prerequisite requirements. Assessment on prerequisite knowledge will be based on the subjects you have listed on this form.
- Please provide a separate file (in Word or PDF format) containing unit outlines/unit descriptions for each of the following nominated subjects. Unit outlines should be official descriptions from the university, which usually can be found in your university handbook or on your university website.
- You may enrol in the Master of Pharmacy degree with 12 credit points of prerequisite subjects outstanding as long as these units of study are completed by the end of the first year of the Master of Pharmacy. If you have not completed studies in one or more of the prerequisite subjects, please indicate how and when you intend to meet these requirements (eg completing in current degree). You may check with the faculty about your study plan should you be offered a place.

Prerequisite subject	Code of unit(s) completed or planned to complete	Name of unit(s) completed or planned to complete	Credit points shown on your transcript	Date of completion
<i>Example:</i>				
Calculus	MATH1011	Applications of Calculus	3	Semester 1 2016
Statistics	MATH1015	Biostatistics	N/A	I will complete MATH1015 in Semester 1 2018 at USYD

Required Prerequisites:				
Calculus (3 credit points)				
Statistics (3 credit points)				
Biochemistry (6 credit points)				
Chemistry (12 credit points)				
Physiology (12 credit points)				
Pharmacology (12 credit points)				

You MUST provide a copy of your academic transcript showing details of the above subjects and a copy of the subject/unit outline e.g. handbook entry for each subject/unit. Your application for admission to the Master of Pharmacy cannot be considered without this information.
