

Master of Medicine (Clinical Epidemiology) and Master of Science in Medicine (Clinical Epidemiology)

Admission supplementary form

Allocation of Commonwealth Supported Places (CSPs) and Clinical Epidemiology Scholarships are based on academic merit and overall merit relative to opportunity including domains of prizes and awards, relevant work experience, community engagement, and contribution to profession and society, taking into account the applicant's level of experience and career disruption.

Please provide a statement demonstrating how you meet each criterion for the award of CSPs and Clinical Epidemiology Scholarships and upload with your application the academic transcripts of all your previous degrees, your CV, and any additional evidence such as certificates for any prizes and/or awards.

1. List all awards and prizes that you have received.

2. Describe your community engagement in last 5 years.

3. Describe your service to society and/or profession in last 5 years.

4. List your top 5 publications.

5. To facilitate a fair and equitable assessment of your achievements relative to the stage of career and opportunity, please clearly specify personal or professional circumstances impacting your career over the last 10 years
