The 6-week placement enables students to work and live within the central business districts of a major Chinese city while gaining valuable work experience and building peer and professional networks. Students will intern full-time for up to 40 hours per week in an internship while concurrently working on assignments from the University. The program’s design provides each student with a comprehensive academic, professional and cultural experience to position them well for a global career.

Students will receive a total of 6 credit points towards their degree by successfully completing the relevant Business School unit of study.

Units of study

Students accepted into the program will be enrolled into BUSS2504/BUSS6506 China Placement Program - Administered by the Business School. The unit requires students to undertake their work placement in China as well as undertaking preparatory coursework in reflective and professional practice while concurrently completing associated coursework.

Assessment will include a critical self-reflection report and an oral presentation based on the placement experience.

The China Placement Program is an elective unit of study and cannot count towards a major/specialisation. It is the student’s responsibility to ensure that they have room in their degree to undertake this unit.
