Log into RECS with your Username and Password. If you are unable to log in with these details, please contact the University Service Desk on 9351 2000.

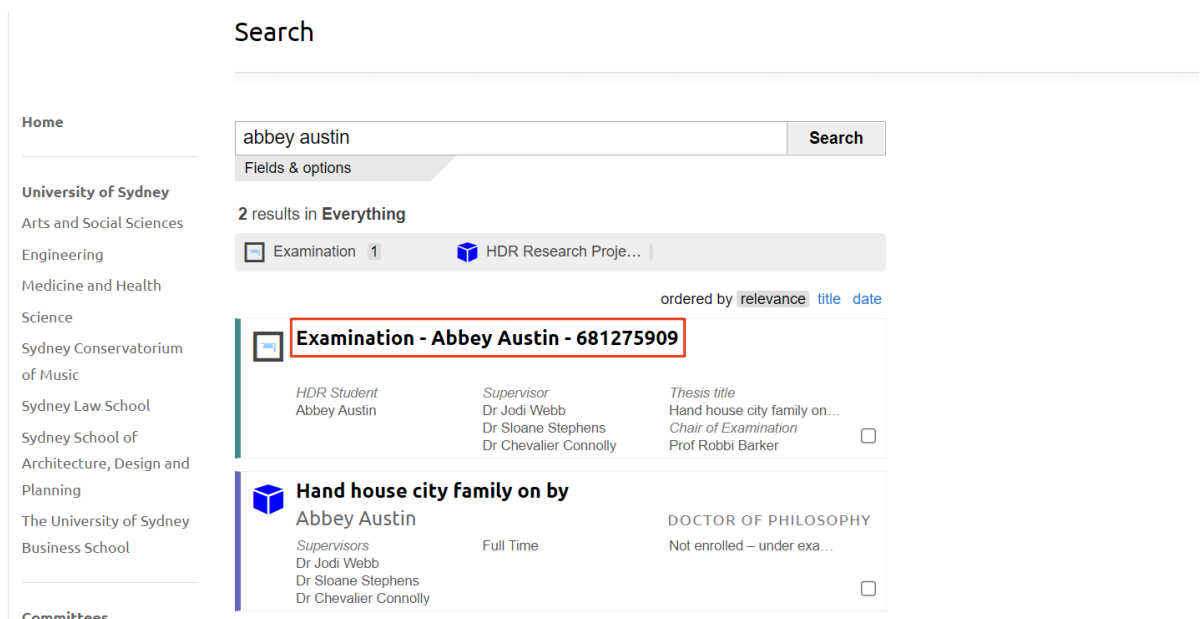

2 NAVIGATING IN RECS

To navigate to a student examination record in RECS,

The screenshot shows the RECS homepage for the University of Sydney. At the top, there is a navigation bar with a search box, a 'Search' button, and links for 'Browse', 'Recent', and 'TESTING'. The user is logged in as 'John Smith' with 2 tasks. The main content area features a 'Noticeboard' and a list of university departments on the left. On the right, there are buttons for 'Dashboards', 'My record', 'Calendar subscriptions', 'Test scheduled actions', and 'Report a data issue...'.

Enter the student name or student ID number and click on search

The screenshot shows the search results page in RECS. The search term 'abbey austin' has been entered, and 2 results are shown. The first result is 'Examination - Abbey Austin - 681275909', which is highlighted with a red box. The second result is 'Hand house city family on by Abbey Austin'. The search results are ordered by relevance, title, and date.

 Recommendation Grounds for recommendation Release of name and comments

As described in Clause 8 of [Thesis and Examination of Higher Degrees by Research Policy 2015](#) , the thesis should:

a) be the student's own work, embodying the results of the work undertaken by the student during candidature;

b) form a substantially original contribution to the knowledge of the subject concerned;

c) afford evidence of originality by the discovery of new knowledge; and the exercise of independent critical ability;

d) form a cohesive and unified whole;

e) include a substantial amount of material that may be suitable for publication;

f) satisfactorily demonstrate that the student is able to identify, access, organise and communicate new and established knowledge;

g) be written in a standard generally acceptable to the discipline;

h) be written in English (except where permitted under the [University of Sydney \(Higher Degree by Research\) Rule 2011](#))

Please be reminded, some examinations include assessment of additional items such as creative components, and others have other specific requirements. Please double check for any additional requirements for this examination before commencing your assessment of this thesis at <https://www.sydney.edu.au/students/thesis-examination.html>

Recommendation

Grounds for recommendation

Release of name and comments

Recommendation *

☐ The student be awarded the degree without further conditions
☐ The student be awarded the degree subject to corrections of the thesis to the satisfaction of the University. Corrections may range in extent from 'minor' to 'major'. Such corrections include errors or omissions in the thesis, which must be corrected but which do not significantly alter the conclusions of the thesis. Corrections may also include additions or deletion of material in the text, tables, figures, or appendices. Changes should, in the opinion of the examiner, not require an additional period of research and should not result in the conclusions of the thesis being significantly altered. Corrections do not require the thesis to be returned to examiners, but can be adjudicated by the Chair of Examination.
☐ The student not be awarded the degree, but be permitted to resubmit a revised thesis for examination following a further period of study. The thesis in its current form does not merit award. There are errors and/or deficiencies that, in the opinion of the examiner, substantially affect the argument or the conclusions of the thesis. Changes may include but are not limited to the provision of extra data or material. The student demonstrates sufficient ability that, after an additional period of study, a thesis of the required standard may be achieved. Following revision and resubmission, the thesis is re-examined.
☐ The student not be awarded a doctoral degree but be awarded another degree for which they are eligible. The thesis is not considered satisfactory for the award of the degree for which it was submitted, but another degree for which the student is eligible may be awarded instead.
☐ The student not be awarded the degree. The thesis does not merit award of the degree and does not demonstrate sufficient ability by the student for a resubmitted thesis to achieve this merit. For example, the hypothesis and methods may be fatally flawed, therefore rendering the conclusions completely invalid and not capable of being rectified by an additional period of study.

Grounds for recommendation

Release of name and comments

To help the university reach a decision on this student's examination, please either provide commentary in the relevant text boxes or attach a document containing all of the relevant information, consistent with your recommendation.

In cases where examiners are not unanimous in their recommendation, this information will form the basis of the decision made by the University on the award or non-award of the degree.

Please state the grounds on which you base your recommendation. *

You may also wish to provide suggestions for the next steps in research or improvements for publication that are not required for the award of the degree.

Please comment on the strengths and weakness of the thesis and the particular contributions made by the student. *

This can be provided in the body of your report, but it will be helpful for the committee's consideration if you can detail them there.
