

Subject line: Further update on Semester 2 results release

Email pre-header: We have successfully reissued Semester 2 results to University email accounts.

When: Thursday 18 December

Audience: All students receiving results on 17 December

Student ID: xxxxxxxxxx

Dear <Preferred name>,

We'd like to give you a further update following our emails about results yesterday.

Last night, we successfully reissued all Semester 2 results to University student email accounts. You should now have this in your inbox.

We also removed the two original results emails we sent to you yesterday morning, from your University student email account.

Overnight, our teams have also commenced awarding students who have completed their degrees, so they have access to completion letters. This is continuing today.

Re-enrolment has also opened for many students following their results being available. This will also continue today, so [if you are re-enrolling](#), you should have access to do so soon.

Once again, we apologise for any confusion the error yesterday caused. If you have any further issues, you can [contact us](#).
