

Asia-Pacific Women in Leadership workshop

Accelerating change in gender diversity and inclusion

1-3 November 2017

Meeting aims

This year's theme, Accelerating change in gender diversity and inclusion, will explore how university leadership can drive culture change through innovation and deliver practical solutions based on best practice. Participants will hear from individuals working within and outside of academia and will share their own experiences in this discursive, solutions-based workshop.

Through a range of sessions, participants will:

- Share experiences and case studies, from within and outside higher education, which deliver gender diversity and inclusion.
- Identify examples of innovation and best practice in changing organisational systems and culture to advance gender diversity and inclusion.
- Provide a forum in which participants can discuss existing challenges and generate potential solutions.
- Enable the participants to network and deepen relationships with their international colleagues.
- Discuss how APRU can accelerate change in gender diversity and inclusion, and identify actions for updating the APRU Gender Gap Report.

The programme is structured to encourage participants to work from challenges through to solutions over the course of the workshop.
