

Publications for David Wang

2021

Wang, D., Yee, B., Grunstein, R., Chung, F. (2021). Chronic Opioid Use and Central Sleep Apnea, Where Are We Now and Where To Go? A State of the Art Review. *Anesthesia and Analgesia*, 132(5), 1244-1253. [More Information]

Rowell, L., Wu, J., Yee, B., Wong, K., Sivam, S., Somogyi, A., Grunstein, R., Wang, D. (2021). The effect of acute morphine on sleep in male patients suffering from sleep apnea: Is there a genetic effect? An RCT Study. *Journal of Sleep Research*, 30(4), e13249. [More Information]

2020

Wang, D., Phillips, C., Yee, B., Grunstein, R. (2020). Linking awake ventilatory chemosensitivity with opioid-induced respiratory depression during sleep-an important, but not a new, concept. *Journal of Applied Physiology*, 129(4), 932. [More Information]

Martins, R., Carberry, J., Wang, D., Rowell, L., Grunstein, R., Eckert, D. (2020). Morphine alters respiratory control but not other key obstructive sleep apnoea phenotypes: A randomised trial. *European Respiratory Journal*, 55(6), 1901344. [More Information]

Sivam, S., Yee, B., Chadban, S., Piper, A., Hanly, P., Wang, D., Wong, K., Grunstein, R. (2020). Prevalence of chronic kidney disease in obesity hypoventilation syndrome and obstructive sleep apnoea with severe obesity. *Sleep Medicine*, 74, 73-77. [More Information]

Sivam, S., Poon, J., Wong, K., Yee, B., Piper, A., D'Rozario, A., Wang, D., Grunstein, R. (2020). Slow-frequency electroencephalography activity during wake and sleep in obesity hypoventilation syndrome. *Sleep*, 43(2), 1-9. [More Information]

Wu, J., Wang, D., Rowell, L., Wong, K., Yee, B., Nguyen, C., Han, F., Hilmisson, H., Thomas, R., Grunstein, R. (2020). The effect of acute exposure to morphine on breathing variability and cardiopulmonary coupling in men with obstructive sleep apnea: A randomized controlled trial. *Journal of Sleep Research*, 29(2), 1-11. [More Information]

2019

Wang, D., Yee, B., Grunstein, R. (2019). Does Sleep Apnea Worsen the Adverse Effects of Opioids and Benzodiazepines on Chronic Obstructive Pulmonary Disease? *Annals of the American Thoracic Society*, 16(10), 1237-1238. [More Information]

Rowell, L., Wong, K., Yee, B., Eckert, D., Somogyi, A., Duffin, J., Grunstein, R., Wang, D. (2019). The effect of acute morphine on obstructive sleep apnoea: a randomised double-

blind placebo-controlled crossover trial. *Thorax*, 74, 177-184. [More Information]

2018

Sivam, S., Yee, B., Wong, K., Wang, D., Grunstein, R., Piper, A. (2018). Obesity hypoventilation syndrome: Early detection of nocturnal-only hypercapnia in an obese population. *The Journal of Clinical Sleep Medicine*, 14(9), 1477-1484. [More Information]

Wang, D., Wong, K., Rowell, L., Don, G., Yee, B., Grunstein, R. (2018). Predicting response to oxygen therapy in obstructive sleep apnoea patients using a 10-minute daytime test. *European Respiratory Journal*, 51(1), 1-9. [More Information]

2017

D'Rozario, A., Cross, N., Vakulin, A., Bartlett, D., Wong, K., Wang, D., Grunstein, R. (2017). Quantitative electroencephalogram measures in adult obstructive sleep apnea - Potential biomarkers of neurobehavioural functioning. *Sleep Medicine Reviews*, 36, 29-42. [More Information]

2016

Wang, D., Thomas, R., Yee, B., Grunstein, R. (2016). Hypercapnia is more important than hypoxia in the neuro-outcomes of sleep disordered breathing. *Journal of Applied Physiology*, 120(12), 184-186. [More Information]

Wang, D., Thomas, R., Yee, B., Grunstein, R. (2016). Last Word on Viewpoint: Hypercapnia is more important than hypoxia in the neuro-outcomes of sleep-disordered breathing. *Journal of Applied Physiology*, 120(12), 1489-1489. [More Information]

Vakulin, A., D'Rozario, A., Kim, J., Watson, B., Cross, N., Wang, D., Coeytaux Jackson, A., Bartlett, D., Wong, K., Grunstein, R. (2016). Quantitative sleep EEG and polysomnographic predictors of driving simulator performance in obstructive sleep apnea. *Clinical Neurophysiology*, 127(2), 1428-1435. [More Information]

Nguyen, C., Kim, J., Grunstein, R., Thamrin, C., Wang, D. (2016). Respiratory variability during sleep in methadone maintenance treatment patients. *The Journal of Clinical Sleep Medicine*, 12(4), 607-616. [More Information]

Thomas, R., Wang, D., Yee, B., Grunstein, R. (2016). Response to Brugniaux, Foster, and Beaudin. *Journal of Applied Physiology*, 121(1), 363. [More Information]

2015

Wang, D., Yee, B., Wong, K., Kim, J., Dijk, D., Duffin, J., Grunstein, R. (2015). Comparing the effect of hypercapnia and hypoxia on the electroencephalogram during wakefulness. *Clinical Neurophysiology*, 126(1), 103-109. [More Information]

Wang, D., Bai, X., Williams, S., Hua, S., Kim, J., Marshall, N., D'Rozario, A., Grunstein, R. (2015). Modafinil Increases Awake EEG Activation and Improves Performance in Obstructive Sleep Apnea During Continuous Positive Airway Pressure Withdrawal. *Sleep*, 38(8), 1297-1303. [More Information]

Wang, D., Lintzeris, N., Leung, S., Haber, P., Yee, B., Grunstein, R. (2015). Reversal of central sleep apnoea with change from methadone to buprenorphine-naloxone: a case report. *European Respiratory Journal*, 46(4), 1202-1205. [More Information]

Wang, D., Yee, B., Rowsell, L. (2015). Sleep-disordered breathing-related neurocognitive impairment, time to think beyond hypoxia and sleep fragmentation? *Sleep and Breathing*, 19(1), 23-24. [More Information]

2014

Wang, D., Piper, A., Yee, B., Wong, K., Kim, J., D'Rozario, A., Rowsell, L., Dijk, D., Grunstein, R. (2014). Hypercapnia is a Key Correlate of EEG Activation and Daytime Sleepiness in Hypercapnic Sleep Disordered Breathing Patients. *The Journal of Clinical Sleep Medicine*, 10(5), 517-522. [More Information]

Dempsey, J., Xie, A., Patz, D., Wang, D. (2014). Physiology in Medicine: Obstructive sleep apnea pathogenesis and treatment--considerations beyond airway anatomy. *Journal of Applied Physiology*, 116(1), 3-12. [More Information]

Wang, D., Rowsell, L., Yee, B. (2014). Positive airway pressure treatment for opioid-related central sleep apnea, where are we now? *Sleep and Breathing*, 18(2), 229-231. [More Information]

Naqvi, H., Wang, D., Glozier, N., Grunstein, R. (2014). Sleep-disordered breathing and psychiatric disorders. *Current Psychiatry Reports*, 16(12), 1-11. [More Information]

2013

Wang, D., Eckert, D., Grunstein, R. (2013). Drug effects on ventilatory control and upper airway physiology related to sleep apnea. *Respiratory Physiology and Neurobiology*, 188(3), 257-266. [More Information]

Wang, D., Somogyi, A., Yee, B., Wong, K., Kaur, J., Wrigley, P., Grunstein, R. (2013). The effects of a single mild dose of morphine on chemoreflexes and breathing in obstructive sleep apnea. *Respiratory Physiology and Neurobiology*, 185(3), 526-532. [More Information]

Killick, R., Wang, D., Hoyos, C., Yee, B., Grunstein, R., Liu, P. (2013). The effects of testosterone on ventilatory responses in men with obstructive sleep apnoea: a randomised, placebo-controlled trial. *Journal of Sleep Research*, 22(3), 331-336. [More Information]

2011

Wang, D., Marshall, N., Duffin, J., Yee, B., Wong, K., Noori, N., Ng, S., Grunstein, R. (2011). Phenotyping interindividual variability in obstructive sleep apnoea response to temazepam using ventilatory chemoreflexes during wakefulness. *Journal of Sleep Research*, 20(4), 526-532. [More Information]

Wang, D., Piper, A., Wong, K., Yee, B., Marshall, N., Dijk, D., Grunstein, R. (2011). Slow Wave Sleep in Patients with Respiratory Failure. *Sleep Medicine*, 12(4), 378-383. [More Information]

2009

Phillips, C., Yee, B., Trenell, M., Magnussen, J., Wang, D., Banerjee, D., Berend, N., Grunstein, R. (2009). Changes in regional adiposity and cardio-metabolic function following a weight loss program with sibutramine in obese men with obstructive sleep apnea. *The Journal of Clinical Sleep Medicine*, 5(5), 416-421. [More Information]

2008

Piper, A., Wang, D., Yee, B., Grunstein, R., Barnes, D. (2008). Randomised trial of CPAP vs bilevel support in the treatment of obesity hypoventilation syndrome without severe nocturnal desaturation. *Thorax*, 63(5), 395-401. [More Information]

Vedam, H., Phillips, C., Wang, D., Barnes, D., Hedner, J., Unger, G., Grunstein, R. (2008). Short-term hypoxia reduces arterial stiffness in healthy men. *European Journal of Applied Physiology*, 105(1), 19-25. [More Information]

Wang, D., Teichtahl, H., Goodman, C., Drummer, O., Grunstein, R., Kronborg, I. (2008). Subjective daytime sleepiness and daytime function in patients on stable methadone maintenance treatment: Possible mechanisms. *The Journal of Clinical Sleep Medicine*, 4(6), 557-562. [More Information]

Wang, D., Wong, K., Dungan, G., Buchanan, P., Yee, B., Grunstein, R. (2008). The validity of wrist actimetry assessment of sleep with and without sleep apnea. *The Journal of Clinical Sleep Medicine*, 4(5), 450-455. [More Information]

2007

Wang, D., Teichtahl, H. (2007). Opioids, sleep architecture and sleep-disordered breathing. *Sleep Medicine Reviews*, 11(1), 35-46.

eve&db=pubmed&dopt=Abstract&list_uids=17141540">[More Information]

Teichtahl, H., Wang, D. (2007). Sleep-disordered breathing with chronic opioid use. *Expert Opinion on Drug Safety*, 6(6), 641-649. [More Information]

2006

Wang, D., Grunstein, R., Teichtahl, H. (2006). Association between ventilatory response to hypercapnia and obstructive sleep apnea-hypopnea index in asymptomatic subjects. *Sleep and Breathing*, 11(2), 103-108. [More Information]

2005

Wang, D., Teichtahl, H., Drummer, O., Goodman, C., Cherry, G., Cunningham, D., Kronborg, I. (2005). Central Sleep Apnea in Stable Methadone Maintenance Treatment Patients. *Chest*, 128(3), 1348-1356. [More Information]

Teichtahl, H., Wang, D., Cunningham, D., Quinnett, T., Tran, H., Kronborg, I., Drummer, O. (2005). Ventilatory responses to hypoxia and hypercapnia in stable methadone maintenance treatment patients. *Chest*, 128(3), 1339-1347. [More Information]

2004

Teichtahl, H., Wang, D., Cunningham, D., Kronborg, H., Goodman, C., Prodromidis, A., Drummer, O. (2004). Cardiorespiratory function in stable methadone maintenance treatment (MMT) patients. *Addiction Biology*, 9(3-4), 247-253. [More Information]

2003

Teichtahl, H., Cunningham, D., Cherry, G., Wang, D. (2003). Scoring polysomnography respiratory events: the utility of nasal pressure and oro-nasal thermal sensor recordings. *Sleep Medicine*, 4(5), 419-425. [More Information]
