

Publications for Meredith Jordan

2019

Harrison, A., Kharazmi, A., Shaw, M., Quinn, M., Lee, K., Nauta, K., Rowell, K., Jordan, M., Kable, S. (2019). Dynamics and quantum yields of H₂ + CH₂CO as a primary photolysis channel in CH₃CHO. *Physical Chemistry Chemical Physics*, 21(26), 14284-14295. [More Information]

Rowell, K., Kable, S., Jordan, M. (2019). Structural Effects on the Norrish Type I alpha-Bond Cleavage of Tropospheric Important Carbonyls. *The Journal of Physical Chemistry A*, 123(48), 10381-10396. [More Information]

2018

Lindoy, L., Huang, G., Jordan, M. (2018). Path integrals with higher order actions: Application to realistic chemical systems. *Journal of Chemical Physics*, 148(7), 1-13. [More Information]

Shaw, M., Sztaray, B., Whalley, L., Heard, D., Millet, D., Jordan, M., Osborn, D., Kable, S. (2018). Photo-tautomerization of acetaldehyde as a photochemical source of formic acid in the troposphere. *Nature Communications*, 9(1), 1-7. [More Information]

Kwan, T., Jordan, M. (2018). The proton affinity of methane and its isotopologues: A test for theory. *Chemical Physics Letters*, 708, 216-221. [More Information]

Lee, K., Quinn, M., Kolmann, J., Kable, S., Jordan, M. (2018). Zero-point energy conservation in classical trajectory simulations: Application to H₂CO. *Journal of Chemical Physics*, 148(19), 194113-1-194113-18. [More Information]

2017

Shaw, M., Osborn, D., Jordan, M., Kable, S. (2017). Infrared spectra of gas-phase 1- and 2-propenol isomers. *The Journal of Physical Chemistry A*, 121(19), 3679-3688. [More Information]

Quinn, M., Andrews, D., Nauta, K., Jordan, M., Kable, S. (2017). The energy dependence of CO(v,J) produced from H₂CO via the transition state, roaming, and triple fragmentation channels. *Journal of Chemical Physics*, 147(1), 013935-1-013935-16. [More Information]

2015

D'Arcy, J., Kolmann, J., Jordan, M. (2015). "Plug-and-play" potentials: Investigating quantum effects in (H₂)₂-Li⁺-benzene. *Journal of Chemical Physics*, 143(7), 074311-1-074311-12. [More Information]

Information]

Bauer, T., Jager, C., Jordan, M., Clark, T. (2015). A multi-agent quantum Monte Carlo model for charge transport: Application to organic field-effect transistors. *Journal of Chemical Physics*, 143(4), 044114-1-044114-9. [More Information]

D'Arcy, J., Jordan, M., Frankcombe, T., Collins, M. (2015). H₂ adsorption in a porous crystal: Accurate first-principles quantum simulation. *The Journal of Physical Chemistry A*, 119(50), 12166-12181. [More Information]

Lindoy, L., Kolmann, J., D'Arcy, J., Crittenden, D., Jordan, M. (2015). Path integral Monte Carlo simulations of H₂ adsorbed to lithium-doped benzene: A model for hydrogen storage materials. *Journal of Chemical Physics*, 143(19), 194302-1-194302-10. [More Information]

2014

Morris, M., Jordan, M. (2014). Generating accurate dipole moment surfaces using modified Shepard interpolation. *Journal of Chemical Physics*, 140(20), 1-12. [More Information]

Lee, K., Quinn, M., Maccarone, A., Nauta, K., Houston, P., Reid, S., Jordan, M., Kable, S. (2014). Two roaming pathways in the photolysis of CH₃CHO between 328 and 308 nm. *Chemical Science*, 5(12), 4633-4638. [More Information]

2013

Andrews, D., Kable, S., Jordan, M. (2013). A phase space theory for roaming reactions. *The Journal of Physical Chemistry A*, 117(32), 7631-7642. [More Information]

Hobday, N., Quinn, M., Nauta, B., Andrews, D., Jordan, M., Kable, S. (2013). Experimental and theoretical investigation of triple fragmentation in the photodissociation dynamics of H(2)CO. *The Journal of Physical Chemistry A*, 117(46), 12091-12103. [More Information]

Morris, M., Jordan, M. (2013). Modeling molecular response in uniform and non-uniform electric fields. *Journal of Chemical Physics*, 138(5), 1-9. [More Information]

Kolmann, J., D'Arcy, J., Jordan, M. (2013). Quantum effects and anharmonicity in the H(2)-Li(+)-benzene complex: A model for hydrogen storage materials. *Journal of Chemical Physics*, 139(23), 1-10. [More Information]

2012

Andrews, D., Heazlewood, B., Maccarone, A., Conroy, T., Payne, R., Jordan, M., Kable, S. (2012). Photo-tautomerization of acetaldehyde to vinyl alcohol: A potential route to tropospheric acids. *Science*, 337(6099), 1203-1206. [More Information]

Clubb, A., Jordan, M., Kable, S., Osborn, D. (2012). Phototautomerization of acetaldehyde to vinyl alcohol: A primary process in UV-irradiated acetaldehyde from 295 to 335 nm. *Journal of Physical Chemistry Letters*, 3(23), 3522-3526. [More Information]

de Wit, G., Heazlewood, B., Quinn, M., Maccarone, A., Nauta, B., Reid, S., Jordan, M., Kable, S. (2012). Product state and speed distributions in photochemical triple fragmentations. *Faraday Discussions*, 157(2012), 227-241. [More Information]

Jordan, M., Kable, S. (2012). Roaming reaction pathways along excited states. *Science*, 335(6072), 1054-1055. [More Information]

Yamamoto, I., Jordan, M., Gavande, N., Doddareddy, M., Chebib, M., Hunter, L. (2012). The enantiomers of syn-2,3-difluoro-4-aminobutyric acid elicit opposite responses at the GABA(C) receptor. *Chemical Communications*, 48(6), 829-831. [More Information]

2011

Heazlewood, B., Maccarone, A., Andrews, D., Osborn, D., Harding, L., Klippenstein, S., Jordan, M., Kable, S. (2011). Near-threshold H/D exchange in CD(3)CHO photodissociation. *Nature Chemistry*, 3(6), 443-448. [More Information]

Hunter, L., Jolliffe, K., Jordan, M., Jensen, P., Macquart, R. (2011). Synthesis and conformational analysis of alpha,beta-difluoro-gamma-amino acid derivatives. *Chemistry - A European Journal*, 17(8), 2340-2343. [More Information]

2010

Kolmann, J., Jordan, M. (2010). Method and basis set dependence of anharmonic ground state nuclear wave functions and zero-point energies: Application to SSSH. *Journal of Chemical Physics*, 132(5), 1-10. [More Information]

Banister, S., Moussa, I., Jordan, M., Coster, M., Kassiou, M. (2010). Oxo-bridged isomers of aza-trishomocubane sigma (o) receptor ligands: Synthesis, in vitro binding, and molecular modeling. *Bioorganic and Medicinal Chemistry Letters*, 20(1), 145-148. [More Information]

2009

Jordan, M., Castro, J. (2009). Determination of particle size for colloidal dispersions: An APCELL experiment. *The Australian Journal of Education in Chemistry*, 69, 25-28.

Kolmann, J., Jordan, M. (2009). Interpolated potential energy surfaces. *XXII Dynamics of Molecular Collisions Meeting*.

Kable, S., Heazlewood, B., Maccarone, A., Jordan, M. (2009). Isotopic exchange mechanisms implicated in the photodissociation dynamics of acetaldehyde-d3. *30th International Symposium on Free Radicals*, N/A: N/A.

Heazlewood, B., Rowling, S., Maccarone, A., Jordan, M., Kable, S. (2009). Photochemical formation of HCO and CH(3) on the ground S(0) ((1)A') state of CH(3)CHO. *Journal of Chemical Physics*, 130(5), 054310-1-054310-8. [More Information]

Kable, S., Heazlewood, B., Maccarone, A., Jordan, M. (2009). Photodissociation dynamics of acetaldehyde-d3: It's the little things that count. *International Conference on Advanced Vibrational Spectroscopy*, N/A: N/A.

Kable, S., Heazlewood, B., Maccarone, A., Jordan, M. (2009). Photodissociation dynamics of aldehydes. *Gordon Research Conference*, N/A: N/A.

2008

Kolmann, J., Chan, B., Jordan, M. (2008). Modelling the interaction of molecular hydrogen with lithium-doped hydrogen storage materials. *Chemical Physics Letters*, 467, 126-130. [More Information]

Heazlewood, B., Jordan, M., Kable, S., Selby, T., Osborn, D., Shepler, B., Braams, B., Bowman, J. (2008). Roaming is the dominant mechanism for molecular products in acetaldehyde photodissociation. *Proceedings of the National Academy of Sciences of the United States of America*, 105(35), 12719-12724. [More Information]

2007

Jordan, M., Crittenden, D., Thompson, K. (2007). Quantum effects in loosely bound complexes. In James B Anderson and Stuart M Rothstein (Eds.), *Advances in Quantum Monte Carlo*, (pp. 101-140). USA: American Chemical Society. [More Information]

2006

Thompson, K., Crittenden, D., Kable, S., Jordan, M. (2006). A classical trajectory study of the photodissociation of T-1 acetaldehyde: The transition from impulsive to statistical dynamics. *Journal of Chemical Physics*, 124(4), 044302-1-044302-15. [More Information]

Crittenden, D., Park, A., Qiu, J., Silverman, R., Duke, R., Johnston, G., Jordan, M., Chebib, M. (2006). Enantiomers of cis-constrained and flexible 2-substituted GABA analogues exert opposite effects at recombinant GABA(C) receptors. *Bioorganic and Medicinal Chemistry*, 14(2), 447-455. [More Information]

2005

Crittenden, D., Chebib, M., Jordan, M. (2005). A quantitative structure-activity relationship investigation into agonist binding at GABA C receptors. *Computational and Theoretical Chemistry*, 755, 81-89. [More Information]

Thompson, K., Crittenden, D., Jordan, M. (2005). CH5+:

Chemistry's chameleon unmasked. *Journal of the American Chemical Society*, 127(13), 4954-4958. [More Information]

Crittenden, D., Jordan, M. (2005). Interpolated potential energy surfaces: How accurate do the second derivatives have to be? *Journal of Chemical Physics*, 122(4), 044102-1-044102-6. [More Information]

Crittenden, D., Thompson, K., Jordan, M. (2005). On the extent of intramolecular hydrogen bonding in gas-phase and hydrated 1,2-ethanediol. *The Journal of Physical Chemistry A*, 109(12), 2971-2977. [More Information]

Crittenden, D., Chebib, M., Jordan, M. (2005). Stabilization of zwitterions in solution: GABA analogues. *The Journal of Physical Chemistry A*, 109(18), 4195-4201. [More Information]

Crittenden, D., Kumar, R., Hanrahan, J., Chebib, M., Jordan, M. (2005). Stabilization of zwitterions in solution: Phosphinic and phosphonic acid GABA analogues. *The Journal of Physical Chemistry A*, 109(37), 8398-8409. [More Information]

2004

Crittenden, D., Chebib, M., Jordan, M. (2004). Stabilization of Zwitterions in Solution: $\hat{3}$ -Aminobutyric Acid (GABA). *The Journal of Physical Chemistry A*, 108(1), 203-211. [More Information]

2003

Jordan, M., Thompson, K. (2003). The response of a molecule to an external electric field: predicting structural and spectroscopic change. *Chemical Physics Letters*, 370(1-2), 14-20. [More Information]

2002

Jordan, M., Del Bene, J. (2002). To What Extent Do External Fields and Vibrational and Isotopic Effects Influence NMR Coupling Constants Across Hydrogen Bonds? Two-Bond Cl-N Spin-Spin Coupling Constants ($2hJ_{Cl-N}$) in Model ClH:NH₃ Complexes. *The Journal of Physical Chemistry A*, 106(21), 5385-5392. [More Information]

2001

Bevitt, J., Chapman, K., Crittenden, D., Jordan, M., Del, B. (2001). An ab initio study of anharmonicity and field effects in hydrogen-bonded complexes of the deuterated analogues of HCl and HBr with NH₃ and N(CH₃)₃. *The Journal of Physical Chemistry A*, 105(13), 3371-3378.

Toh, J., Jordan, M., Husowitz, B., Del, B. (2001). Can proton-shared or ion-pair N-H-N hydrogen bonds be produced in uncharged complexes? A systematic ab initio study of the structures and selected NMR and IR properties of complexes with N-H-N hydrogen bonds. *The Journal of Physical Chemistry A*, 105, 10906-10914. [More Information]

Chapman, K., Crittenden, D., Bevitt, J., Jordan, M., Del, B. (2001). Relating environmental effects and structures, IR, and NMR properties of hydrogen-bonded complexes: ClH:Pyridine. *The Journal of Physical Chemistry A*, 105, 5442-5449. [More Information]

Jordan, M., Toh, J., Del, B. (2001). Vibrational averaging of NMR properties for an N-H-N hydrogen bond. *Chemical Physics Letters*, 346(3-4), 288-292. [More Information]

Del, B., Jordan, M., Perera, S., Bartlett, R. (2001). Vibrational effects on the F-F spin-spin coupling constant ($2hJ_{F-F}$) in FHF- and FDF-. *The Journal of Physical Chemistry A*, 105(37), 8399-8402. [More Information]

Jordan, M., Del, B. (2001). What a difference a decade makes: Progress in ab initio studies of the hydrogen bond. *Computational and Theoretical Chemistry*, 573, 11-23.
