Scope

This document applies to professional staff covered by the University of Sydney Enterprise Agreement 2018-2021 (the Agreement) engaged as painters, plumbers, carpenters, electricians, refrigeration mechanics and apprentices.

Policy

A. Tool allowances - eligibility
   a) Tool allowances are paid to trades staff who are required by the University to supply and maintain their own tools of trade. To qualify for a tool allowance, staff must supply the tools applicable to their trade as listed below, and maintain them in a serviceable condition.
   b) The University may, at its discretion, provide apprentices with all necessary tools (which would remain the property of the University at all times) instead of a tool allowance.
   c) If a tool allowance is paid to a staff member, the University may inspect the tools provided by the staff member. If the University is not satisfied that the tools required are being provided and/or kept in a serviceable condition, the University will require the staff member to either buy the required tools and/or repair them.
